## 2011 FSA County Committee Elections for Scott Valley

The election of agricultural producers to Farm Service Agency (FSA) county committees is important to ALL farmers and ranchers, whether beginning or long-established, large or small. It is crucial that every eligible producer participate in these elections because FSA county committees are a link between the agricultural community and the U.S. Department of Agriculture.

County Committee (COC) members are a critical component of FSA operations. The intent is to have the COC reflect the makeup of the producers and to represent all constituents. This means wherever possible, minorities, women or lower income producers need to be on the committee to speak for these underrepresented groups.

County committees provide local input on commodity price support loans and payments, conservation programs, incentive, indemnity and disaster payments for some commodities, emergency programs and payment eligibility.

FSA county committee members apply their judgment and knowledge to make local decision and operate within official regulations designed to carry out federal rules, regulations and laws.

## NAP Records

Production records for individual crops need to be filed at the FSA office to establish an approved NAP yield. If this is your first year in NAP, you can provide production and acreage information from prior years to establish your yield. If you participated in NAP in previous years, you must report your production and acreage on a yearly basis to keep your yield up-to-date. Records submitted must be reliable or verifiable and need to show crop disposition. We recommend producers submit production records as soon as harvest is complete. **All production records must be submitted by the subsequent crop year's final acreage reporting date.**

## NAP Loss Filing

The CCC-576, Notice of Loss, is used to report failed acreage and prevented planting and may be completed by any producer with an interest in the crop. Timely filing the Notice of Loss is required for ALL CROPS INCLUDING GRASSES. For losses on crops covered by the Non-insured Crop Disaster Assistance Program (NAP) and crop insurance, you must file a CCC-576 (notice of loss) in the FSA County Office within 15 days of the occurrence of the disaster or when losses become apparent.

If filing for prevented planting, an acreage report and CCC-576 must be filed within 15 calendar days of the final planting date for the crop.

## AGI and the IRS

USDA has a Memorandum of Understanding with the Internal Revenue Service to establish an electronic information exchange process for verifying compliance with the adjusted gross income (AGI) provisions for farm programs. Written consent will be required from each producer or payment recipient for the tax review process. No actual tax data will be included in the verification report that IRS sends to FSA.

The agreement ensures that payments are not issued to producers whose AGI exceeds certain limits. The limits set in the 2008 Farm Bill are \$500,000 nonfarm average AGI for commodity and disaster programs; \$750,000

farm average AGI for direct payments; and \$1 million nonfarm average AGI for conservation programs.

Participants in CCC programs subject to average AGI rules must submit form CCC-927 (Individual) and/or CCC-928 (Legal Entity) to the Internal Revenue Service by June 15 to avoid interruption of program benefits. These forms may be obtained from local FSA and NRCS offices.

## Farm Reconstitutions

At FSA, farms are "constituted" to group all tracts having the same owner and the same operator under one farm serial number. When changes in ownership or operation take place, a farm reconstitution is necessary. If multiple owners and/or operators do not agree about program participation and want to separate acres by programs, for example to enter only a segment of property into the new ACRE program, then producers should inquire about a reconstitution of the farm at the local FSA office.

The reconstitution—or recon—is the process of combining or dividing farms or tracts of land based on the farming operation. NOTE: to be effective for the current year, recons must be requested by August 1, 2011 for farms enrolled in specific programs.

## Farm Loan Programs

The Farm Service Agency is committed to providing family farmers with credit to meet their business needs. Farmers having trouble obtaining financing have both direct and guaranteed loan options.

Farmers who have had a setback and whose lenders are reluctant to extend or renew credit can ask their lender if they qualify for an FSA loan guarantee

Farm ownership loans or farm operating loans may be obtained as direct loans for a maximum of up to \$300,000. Guaranteed loans can reach a maximum indebtedness of \$1,119,000. Producers are encouraged to apply early so that a loan can be processed and funded in a timely manner prior to production credit needs.

FSA employees will help you complete the necessary application and other forms, and help you understand what information is required, where to find it or who to contact to get it. To find out more about FSA loan programs, contact the county office staff.

## DCP and ACRE Signup, Advance Payments

Enrollment for the 2011 Direct and Counter-cyclical Program (DCP) and also the 2011 ACRE Program has begun and will continue through June 1, 2011.

Advance payments of 22% on the 2011 DCP program are available now. The remaining 78% of your DCP payment will be issued after October 1, 2011. ACRE is a revenue based payment alternative to the price-based counter-cyclical (CC) payments.

In DCP, eligible producers receive direct payments at rates established by statute regardless of market prices. DCP or ACRE contract signatures for enrollment are due by the signup deadline of June 1, 2011. For more information producers can contact our office.
