USDA Farm Service Agency County Committee Elections to Began Monday, Nov. 3

USDA encourages farmers and ranchers to make their voices heard by voting in the upcoming Farm Service Agency (FSA) County Committee elections. Beginning Monday, Nov. 3, 2014, USDA will mail ballots for the 2014 elections to eligible producers across the country. Producers must return ballots to their local FSA offices by the Dec. 1, 2014, deadline to ensure that their vote is counted.

FSA County Committee members provide an important link between the local agricultural community and USDA. Farmers and ranchers elected to county committees help deliver FSA programs at the local level, applying their knowledge and judgment to make decisions on commodity support programs; conservation programs; indemnity and disaster programs; emergency programs and eligibility. County committees operate within official regulations designed to carry out federal laws.

To be an eligible voter, farmers and ranchers must participate or cooperate in an FSA program. A person who is not of legal voting age, but supervises and conducts the farming operations of an entire farm may also be eligible to vote.

Larry Purnell

Please contact your local FSA Office for questions specific to your operation or county.

Eligible voters who do not receive ballots in the coming week may pick one up at their local USDA Service Center or FSA office. The deadline to submit ballots is Dec. 1, 2014. Ballots returned by mail must be postmarked no later than Dec. 1, 2014. Newly elected committee members and their alternates will take office Jan. 1, 2015.

More information on county committees, such as the new 2014 fact sheet and brochures, can be found on the FSA website at www.fsa.usda.gov/elections. You may also contact your local USDA Service Center or FSA office. Visit <http://go.usa.gov/pYV3> to find an FSA office near

USDA Extends Dairy Margin Protection Program Deadlines

Enrollment Continues Through Dec. 5; Comments Accepted Until Dec. 15

USDA is extending the deadlines for the dairy Margin Protection Program. Farmers now have until Dec. 5, 2014, to enroll in the voluntary program, established by the 2014 Farm Bill. The program provides financial assistance to participating farmers when the margin – the difference between the price of milk and feed costs – falls below the coverage level selected by the farmer.

Producers are encouraged to use the online Web resource at www.fsa.usda.gov/mpptool to calculate the best levels of coverage for their dairy operation. The secure website can be accessed via computer, smartphone or tablet.

The U.S. Department of Agriculture (USDA) also extended the opportunity for public comments on both the Margin Protection Program and the Dairy Product Donation Program until Dec. 15, 2014.

Comments can be submitted to USDA via the regulations.gov website at <http://go.usa.gov/GJSA>.

USDA Releases New State-by-State "Made in Rural America" Report

As part of the US Department of Agriculture's (USDA) commitment to strengthening rural economies, Secretary Tom Vilsack announced a new state-by-state "Made in Rural America" report illustrating the impact of USDA investments in rural communities. Each state factsheet highlights specific USDA investments in rural businesses, manufacturing, energy, water and other infrastructure development. They also outline how USDA is helping rural communities attract businesses and families by investing in housing and broadband.

These fact sheets reflect Secretary Vilsack's efforts to strengthen the "four pillars" of a new economy in rural America: developing a robust bio-based economy; promoting exports and production agriculture fueled by increased productivity and research; encouraging conservation including land management, stewardship and outdoor recreational opportunities; and building a strong local and regional food system to harness entrepreneurial innovation and help small and medium-sized family farms succeed in rural America.

The report's state by state fact sheets are available at www.usda.gov/opportunities.

USDA Farm Service Agency Announces Key Dates for New 2014 Farm Bill Safety Net Programs

USDA announced key dates for farm owners and producers to keep in mind regarding the new 2014 Farm Bill established programs, Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC). The new programs, designed to help producers better manage risk, usher in one of the most significant reforms to U.S. farm programs in decades.

Dates associated with ARC and PLC that farm owners and producers need to know:

- Sept. 29, 2014 to Feb. 27, 2015: Land owners may visit their local Farm Service Agency office to update yield history and/or reallocate base acres.
- Nov. 17, 2014 to March 31, 2015: Producers make a one-time election of either ARC or PLC for the 2014 through 2018 crop years.
- Mid-April 2015 through summer 2015: Producers sign contracts for 2014 and 2015 crop years.
- October 2015: Payments for 2014 crop year, if needed.

USDA leaders will visit with producers across the country to share information and answer questions on the ARC and PLC programs.

USDA helped create online tools to assist in the decision process, allowing farm owners and producers to enter information about their operation and see projections that show what ARC and/or PLC will mean for them under possible future scenarios. The new tools are now available at www.fsa.usda.gov/arc-plc. Farm owners and producers can access the online resources from the convenience of their home computer or mobile device at any time.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity.

Producers can contact their local FSA office for more information or to schedule an appointment.

USDA's Farm Service Agency (FSA) Offers Farm Bill Website and Online Overview of Farm Bill Programs

The Agricultural Act of 2014 (the Act), also known as the 2014 Farm Bill, was signed by President Obama on Feb. 7, 2014. The Act repeals certain programs, continues some programs with modifications, and authorizes several new programs administered by the Farm Service Agency (FSA). Most of these programs are authorized and funded through 2018.

For the latest on 2014 Farm Bill programs administered by FSA, please visit our Farm Bill website at www.fsa.usda.gov/farmbill and for an FSA program overview please read, download and/or print our recently posted FSA Farm Bill Fact Sheet titled, [What's in the 2014 Farm Bill for Farm Service Agency Customers?](#)

For more information on FSA, please contact your local USDA Service Center or visit us online at www.fsa.usda.gov.

New Farm Bill Offers Increased Opportunities for Producers

The 2014 Farm Bill offers increased opportunities for producers including farm loan program modifications that create flexibility for new and existing farmers. A fact sheet outlining modifications to the U.S. Department of Agriculture's (USDA) Farm Service Agency (FSA) Farm Loan Programs is available [here](#).

The Farm Bill expands lending opportunities for thousands of farmers and ranchers to begin and continue operations, including greater flexibility in determining eligibility, raising loan limits, and emphasizing beginning and socially disadvantaged producers.

- Changes that will take effect immediately include:
- Elimination of the 15 year term limit for guaranteed operating loans.
- Modification of the definition of beginning farmer, using the average farm size for the county as a qualifier instead of the median farm size.
- Modification of the Joint Financing Direct Farm Ownership Interest Rate to 2 percent less than regular Direct Farm Ownership rate, with a floor of 2.5 percent. Previously, the rate was established at 5 percent.
- Increase of the maximum loan amount for Direct Farm Ownership Down Payment Loan Program from \$225,000 to \$300,000.
- Elimination of rural residency requirement for Youth Loans, allowing urban youth to benefit.
- Debt forgiveness on Youth Loans, which will not prevent borrowers from obtaining additional loans from the federal government.
- Increase of the guaranteed percentage on Conservation Loans from 75 to 80 percent and 90 percent for socially disadvantaged borrowers and beginning farmers.
- Microloans will not count toward direct operating loan term limits for veterans and beginning farmers.

Additional modifications must be implemented through the rulemaking processes. Visit the [FSA Farm Bill website](#) for detailed information and updates to farm loan programs.

USDA Expands Access to Credit to Help More Beginning and Family Farmers

The U.S. Department of Agriculture (USDA) announced improvements to farm loan programs by expanding eligibility and increasing lending limits to help more beginning and family farmers. As part of this effort, USDA is raising the borrowing limit for the microloan program from \$35,000 to \$50,000; simplify the lending processes; updating required “farming experience” to include other valuable experiences; and expanding eligible business entities to reflect changes in the way family farms are owned and operated. The changes become effective Nov. 7.

The microloan changes will allow beginning, small and mid-sized farmers to access an additional \$15,000 in loans using a simplified application process with up to seven years to repay. Microloans are part of USDA’s continued commitment to [small and midsized farming operations](#).

In addition to farm related experience, other types of skills may be considered to meet the direct farming experience required for farm loan eligibility such as operation or management of a non-farm business, leadership positions while serving in the military, or advanced education in an agricultural field. Also, individuals who own farmland under a different legal entity operating the farm now may be eligible for loans administered by USDA’s Farm Service Agency (FSA). Producers will have an opportunity to share suggestions on the microloan process, and the definitions of farming experience and business structures through Dec. 8, 2014, the public open comment period.

FSA is also publishing a Federal Register notice to solicit ideas from the public for pilot projects to help increase the efficiency and effectiveness of farm loan programs. Comments and ideas regarding potential pilot projects will be accepted through Nov. 7, 2014.

For more information on farm loans, please visit www.fsa.usda.gov or contact your local Farm Service Agency office.

Gadsden, Jackson, Jefferson and Leon Counties are Eligible for Emergency Loans

Gadsden, Jackson, Jefferson and Leon Counties were declared a contiguous disaster due to drought and heat using the streamlined Secretarial Disaster Designation process. Under this designation, producers with operations in any primary or contiguous county are eligible to apply for

low interest emergency loans.

The streamlined disaster designation process issues a drought disaster declaration when a county has experienced a drought intensity value of at least a D2 (severe drought) level for eight consecutive weeks based on the U.S. Drought Monitor during the crop year.

Emergency loans help producers recover from production and physical losses due to drought, flooding and other natural disasters or quarantine.

Producers have eight months from the date of the declaration to apply for emergency loan assistance. FSA will consider each loan application on its own merits, taking into account the extent of losses, security available and repayment ability. Producers can borrow up to 100 percent of actual production or physical losses, to a maximum amount of \$500,000.

For more information about emergency loans, please contact your local FSA office or visit www.fsa.usda.gov.

Save Time – Make an Appointment with FSA

As we roll out the Farm Bill programs administered by FSA, there will be related signups and in some cases multiple management decisions that need to be made by you, the producer, in consult with FSA staff. To insure maximum use of your time and to insure that you are afforded our full attention to your important business needs, please call our office ahead of your visit to set an appointment and to discuss any records or documentation that you may need to have with you when you arrive for your appointment. For local FSA Service Center contact information, please visit: <http://offices.sc.egov.usda.gov/locator/app> .
