2011 FSA County Committee Elections

The election of agricultural producers to Farm Service Agency (FSA) county committees is important to ALL farmers and ranchers, whether beginning or long-established, large or small. It is crucial that every eligible producer participate in these elections because FSA county committees are a link between the agricultural community and the U.S. Department of Agriculture.

County Committee (COC) members are a critical component of FSA operations. The intent is to have the COC reflect the makeup of the producers and to represent all constituents. This means wherever possible, minorities, women or lower income producers need to be on the committee to speak for these underrepresented groups.

County committees provide local input on commodity price support loans and payments, conservation programs, incentive, indemnity and disaster payments for some commodities, emergency programs and payment eligibility.

FSA county committee members apply their judgment and knowledge to make local decision and operate within official regulations designed to carry out federal rules, regulations and laws.

SURE Program

The Supplemental Revenue Assistance Program (SURE) provides benefits for farm revenue losses due to natural disasters that incurred in the crop years 2008 through September 30, 2011. To be eligible for SURE payments, a producer is required to obtain crop insurance on all crops in all counties or, if crop insurance is not available, to participate in the Non-Insured Assistance Program (NAP) except for grazed acreage. However, crop insurance or NAP coverage is no longer required for crops that are not of economic significance or those where the administrative fee required to buy NAP coverage exceeds 10% of the value of the coverage.

Eligible farmers and ranchers who meet the definition of Socially Disadvantaged, Limited Resource, or Beginning Farmer or Rancher are exempt from the risk management purchase requirement.

The following are the conditions that trigger SURE payments:

- At least one crop of economic significance must suffer a 10% production loss due to an eligible disaster condition. (These are crops that contributed or would have contributed at least 5% or more of the total expected revenue from all crops on the farm.)

- Producers in counties declared disaster counties by the Secretary of Agriculture, or in contiguous counties, or those who show proof of an individual loss of at least 50% are eligible to receive SURE payments for crop producer or crop quality losses. Losses are measured with consideration to the whole-farm revenue, which includes crop insurance indemnities and commodity program payments, so that producers are not paid more than once for the same loss.

A SURE calculator is available at: <http://www.fsa.usda.gov/FSA/webapp?area=home&subject=diap&topic=sure>. The calculator is not official, but is intended for educational use. A fact sheet and background information are also available online.

Emergency Assistance for 2010 Losses

More than \$8 million in disaster assistance will be issued to livestock,

honeybee and farm-raised fish producers that suffered losses in 2010 because of disease, adverse weather or other conditions. The aid will come from the Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP).

ELAP sign-up for 2011 losses is also under way. Producers with 2011 losses must file an ELAP application no later than Jan. 30, 2012. They also must file a notice of loss within 30 calendar days of when the loss is apparent to the producer or by Oct. 31, 2011, whichever is earlier. ELAP benefits related to 2011 losses are expected to be issued in early 2012.

Hispanic and Women Farmers

A process to resolve the claims of Hispanic and women farmers and ranchers who believe they were discriminated against when seeking USDA farm loans is being established.

If you believe that the United States Department of Agriculture (USDA) improperly denied farm loan benefits to you during certain time periods between 1981 and 2000 because you are Hispanic, or because you are female, you may be eligible to apply for compensation.

Farm Reconstitutions

At FSA, farms are “constituted” to group all tracts having the same owner and the same operator under one farm serial number. When changes in ownership or operation take place, a farm reconstitution is necessary. If multiple owners and/or operators do not agree about program participation and want to separate acres by programs, for example to enter only a segment of property into the new ACRE program, then producers should inquire about a reconstitution of the farm at the local FSA office.

The reconstitution—or recon—is the process of combining or dividing farms or tracts of land based on the farming operation. NOTE: to be effective for the current year, recons must be requested by August 1, 2011 for farms enrolled in specific programs.
