Direct and Guaranteed Loans Available

Farm Service Agency (FSA) direct loans are available to purchase real estate, livestock, and farm equipment or provide for annual operating expenses. Loans are subject to eligibility and feasibility requirements. A \$300,000 loan is available for both direct operating loans and direct farm ownership loans.

Other loans available directly through FSA include youth loans and Microloans. Youth loans are available to youth ages 10 through 21 to assist with agriculture projects. Youth loans have a \$5,000 loan limit. Microloans, up to \$50,000, are available to serve unique financial operating needs of beginning, niche and small family farm operations.

FSA's guaranteed loan program has a limit of \$1,392,000. A qualifying Lender originates the loan with their rates and terms and seeks a guarantee from FSA. The guarantee can be up to 95% depending on loan type and purpose. There is a one-time loan origination fee charged on FSA guaranteed loans, which is 1.5 percent of the guaranteed portion of the loan.

For more information, producers should contact their local FSA Farm Loan Programs office or visit www.fsa.usda.gov/farmloans.

Save Time - Make an Appointment with FSA

To insure maximum use of your time and to insure that you are afforded our full attention to your important business needs, please call our office ahead of your visit to set an appointment and to discuss any records or documentation that you may need to have with you when you arrive for your appointment. For local FSA Service Center contact information, please visit: <http://offices.sc.egov.usda.gov/locator/app>.

USDA to Issue Disaster Assistance to Help Honeybee, Livestock and Farm-Raised Fish Producers

Farm Bill Program Offers Producers Relief for 2014 Losses in more than 40 States including Kansas

The U.S. Department of Agriculture's (USDA) Farm Service Agency today announced that nearly 2,700 applicants will begin receiving disaster assistance through the Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP) for losses experienced from Oct. 1, 2013, through Sept. 30, 2014.

The program, re-authorized by the 2014 Farm Bill, provides disaster relief to livestock, honeybee, and farm-raised fish producers not covered by other agricultural disaster assistance programs. Eligible losses may include excessive heat or winds, flooding, blizzards, hail, wildfires, lightning strikes, volcanic eruptions and diseases, or in the case of honeybees, losses due to colony collapse disorder. Beekeepers, most of whom suffered honeybee colony losses, represent more than half of ELAP recipients.

The farm bill caps ELAP disaster funding at \$20 million per federal fiscal year and the Budget Control Act of 2011, passed by Congress, requires USDA to reduce payments by 7.3 percent, beginning Oct. 1, 2014. To accommodate the number of requests for ELAP assistance, which exceeded 2014 funding, payments will be reduced to ensure that all eligible applicants receive a prorated share.

Today's announcement was made possible by the 2014 Farm Bill, which builds on historic economic gains in rural America over the past six years, while achieving meaningful reform and billions of dollars in savings for the taxpayer. Since enactment, USDA has made significant progress to implement each provision of this critical legislation, including providing disaster relief to farmers and ranchers; strengthening risk management tools; expanding access to rural credit; funding critical research; establishing innovative public-private conservation partnerships; developing new markets for rural-made products; and investing in infrastructure, housing and community facilities to help improve quality of life in rural America. For more information, visit <http://www.usda.gov/farmbill>.

To learn more about ELAP, visit www.fsa.usda.gov/elap. For more information about USDA Farm Service Agency (FSA) disaster assistance programs, visit disaster.usda.fsa.gov or contact your local FSA office at <http://offices.usda.gov>.

Filing a Notice of Loss

The CCC-576, Notice of Loss, is used to report failed acreage and prevented planting and may be completed by any producer with an interest in the crop. Timely filing a Notice of Loss is required for all crops including grasses. For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP) and crop insurance, you must file a CCC-576, Notice of Loss, in the FSA County Office within 15 days of the occurrence of the disaster or when losses become apparent.

If filing for prevented planting, an acreage report and CCC-576 must be filed within 15 calendar days of the final planting date for the crop.

Dates to Remember

06/01/2015 Final Date to Request MALs and LDPs for 2014 Crop Corn, Cotton, Soybeans and Other Oilseeds, Rice, Grain Sorghum and Pulse Crops
07/15/2015 Final Acreage Reporting Deadline for Spring-seeded Crops

Youth Loans

The Farm Service Agency makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5000.

Youth Loan Eligibility Requirements:

- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien
- Be 10 years to 20 years of age
- Comply with FSA's general eligibility requirements
- Be unable to get a loan from other sources
- Conduct a modest income-producing project in a supervised program of work as outlined above
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the youth loan applicant, along with providing adequate supervision.

Stop by and visit with your local FSA Farm Loan Programs staff for help preparing and processing the application forms.

USDA Creates More Bird Habitat Opportunities on Irrigated Farmland

USDA's Farm Service Agency (FSA) announces more bird habitats to be established in irrigated farmland regions through the Conservation Reserve Program (CRP).

Declines in upland bird populations, such as the northern bobwhite, pheasant, and prairie chicken, led to the creation of new Conservation Reserve Program features to help restore habitats for these species in these agricultural areas. Since the program's creation in 2004, more than 240,000 acres of marginal cropland has been converted to native grasslands, spurring an increase in upland bird populations.

In recent years, however, applications for this type of habitat creation have slowed. To encourage more participation, USDA's new policy focuses on farmland with center-pivot irrigation systems where there are circular areas of cropland with patches of land beyond the reach of irrigation. Until now, these patches – known as pivot corners – were only eligible for habitat creation when connected by a linear strip of grassland also enrolled in the program. The new policy allows producers interested in habitat creation to use disconnected pivot corners to help increase the population of upland birds. Other species that can benefit from today's change include the mourning dove, wild turkey, several sparrows, meadowlark and bobolinks.

The Conservation Reserve Program is a voluntary program. FSA contracts with agricultural landowners so that environmentally sensitive land is not farmed but instead used for conservation. Participants establish long-term plant species that control soil erosion, sequester carbon, improve water quality, and strengthen declining wildlife populations. In return, participants receive annual rental payments between 10 and 15 years.

Interested landowners can enroll pivot corners in the Conservation Reserve Program at any time. Participants and land must meet certain eligibility requirements. Other restrictions may apply. For additional details, contact your local Farm Service Agency office at [offices.usda.gov](https://www.offices.usda.gov) or visit the website at www.fsa.usda.gov/conservation.

USDA Implements 2014 Farm Bill Provision to Limit Payments to Non-Farmers

Department Proposes Changes to "Actively Engaged" Rule

USDA proposed a rule to limit farm payments to non-farmers, consistent with requirements Congress mandated in the 2014 Farm Bill. The proposed rule limits farm payments to individuals who may be designated as farm managers but are not actively engaged in farm management. In the Farm Bill, Congress gave USDA the authority to address this loophole for joint ventures and general partnerships, while exempting family farm operations from being impacted by the new rule USDA ultimately implements.

The current definition of "actively engaged" for managers, established in 1987, is broad, allowing individuals with little to no contributions to critical farm management decisions to receive safety-net payments if they are classified as farm managers, and for some operations there were an unlimited number of managers that could receive payments.

The proposed rule seeks to close this loophole to the extent possible within the guidelines required by the 2014 Farm Bill. Under the proposed rule, non-family joint ventures and general partnerships must document that their managers are making significant contributions to the farming operation, defined as 500 hours of substantial management work per year, or 25 percent of the critical management time necessary for the success of the farming operation. Many operations will be limited to only one manager who can receive a safety-net payment. Operators that can demonstrate they are large and complex could be allowed payments for up to three managers only if they can show all three are actively and substantially engaged in farm operations. The changes specified in the rule would apply to payment eligibility for 2016 and subsequent crop years for Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) Programs, loan deficiency payments and marketing loan gains realized via the Marketing Assistance Loan program.

As mandated by Congress, family farms will not be impacted. There will also be no change to existing rules for contributions to land, capital, equipment, or labor. Only non-family farm general partnerships or joint ventures comprised of more than one member will be impacted by this proposed rule.

Stakeholders interested in commenting on the proposed definition and changes are encouraged to provide written comments at www.regulations.gov by May 26, 2015. The proposed rule is available at <http://go.usa.gov/3C6Kk>.

Selected Interest Rates for April 2015

Direct Farm Operating Loans - 2.375%

Direct Farm Ownership Loans - 3.375%

Direct Farm Ownership Loans — Down Payment, Beginning Farmer or Rancher - 1.50%

Direct Farm Ownership Loans — Joint Financing - 2.50%

Emergency Loans - 3.375%

Farm Storage Facility Loans (7 years) - 1.875%

Commodity Loans 1996-Present - 1.25%

USDA Farm Service Agency (FSA) Announces Online Hay and Grazing Acres Locator Tool

For many years, FSA's **Hay Net** website www.fsa.usda.gov/haynet has been the "go to" online resource for agricultural producers to list information concerning the need for hay or the availability of hay.

Now, in response to requests from livestock producers and landowners, FSA has expanded the site to include the option to list a need for grazing acres or to list acres available for grazing.

If, due to extenuating circumstances, producers are in need of hay and/or grazing acres to support livestock, please use **Hay Net** to post an advertisement seeking these resources. Likewise, landowners who have hay and/or grazing acres available for livestock producers should post a Hay Net advertisement as well.

A few things to remember when using the **Hay Net** website:

- There is a one-time registration process that should be completed by all users who want to post an ad online.
- Users who just want to browse ads DO NOT NEED to have an eAuthentication user id.
- Hay and grazing acre ads will be automatically removed after a period of 13 months.
- Please help your fellow farmer and rancher by keeping ads current and up to date and remove ads you no longer need or want advertised on **Hay Net**. Please, no corporate advertisements on this site.

Hay Net is brought to you by FSA as a public service. The sole purpose of this online resource is to provide a site for the exchange of information. FSA does not endorse, guarantee, or otherwise make representations of any kind regarding any user of this site and FSA is not responsible for defining the terms of grazing agreements or lease contracts.

For more information about **Hay Net** and other FSA services and programs, please contact your local FSA office. For local FSA Service Center contact information, please visit: offices.usda.gov.
