Berrien County FSA Updates

Berrien County FSA Office

3334 Edgewood Rd
Berrien Springs, MI 49103

Phone: 269-471-9111
Fax: 269-471-3773

County Executive Director:
Daniel S Brauer

Farm Loan Manager:
William B Hogan

Farm Loan Officer:
Estanislado (Stan) Munoz

Program Technicians:
Susan Kraklau
Nova Little
Amanda Perry
Marquita Sommer
Delores Whitson

DCP/ACRE Sign-Up Continues

The sign-up period for DCP and ACRE are still open. Producers are encouraged to sign up for DCP before the Aug. 2, 2013, deadline. An even earlier deadline is for ACRE, which will end June 3, 2013.

The 2013 DCP and ACRE program provisions are unchanged from 2012, except that all eligible participants in 2013 may choose to enroll in either DCP or ACRE for the 2013 crop year. This means that eligible producers who were enrolled in ACRE in 2012 may elect to enroll in DCP in 2013 or may re-enroll in ACRE in 2013. Likewise producers who were enrolled in DCP may opt for ACRE enrollment.

[Read more about DCP and ACRE](#) or contact the FSA county office for more information, or an appointment to enroll.

Hay Net

Producers are encouraged to use Hay Net on the FSA website (<http://www.fsa.usda.gov/haynet>). This online service allows producers with hay and those who need hay to post ads so they can make connections. Hay Net is a popular site for farmers and ranchers who have an emergency need. Individual ads can be posted free of charge by producers who complete a simple online registration form the first time they use the site.

2013 FSA County Committee Elections

The election of agricultural producers to the Farm Service Agency (FSA) county committees is important to all farmers and ranchers, whether beginning or long-established, large or small operation. It is crucial that every eligible producer participate in these elections because FSA county committees are a link between the agricultural community and the U.S. Department of Agriculture.

County Committee (COC) members are a critical component of FSA operations. The intent is to have the COC reflect the makeup of the producers and represent all constituents. This means wherever possible, minorities, women or lower income producers need to be on the committee to speak for these underrepresented groups.

County committees provide local input on:

- Commodity price support loans and payments
- Conservation programs
- Incentive, indemnity and disaster payments for some commodities
- Emergency programs
- Payment eligibility.

FSA county committees operate within official regulations designed to carry out federal laws and members apply their judgment and knowledge to make local decisions.

Election Period

June 17, 2013 – The nomination period begins.

Aug. 1, 2013 – This is the last day to file nomination forms (FSA-669A) at the local USDA Service Center.

Nov. 4, 2013 – Ballots mailed to eligible voters.

Dec. 2, 2013 – Last day to return completed ballots to the USDA Service Center.

Jan. 1, 2014 – Newly elected county committee members take office.

Who Can Hold Office

To hold office as a county committee member, a person must meet the basic eligibility criteria:

- Participate or cooperate in a program administered by FSA
- Be eligible to vote in a county committee election
- Reside in the local administrative area (LAA) in which the person is a candidate.

Not have been:

- Removed or disqualified from the office of county committee member, alternate or employee
- Removed for cause from any public office or have been convicted of fraud, larceny, embezzlement or any other felony
- Dishonorably discharged from any branch of the armed services.

Nominations

To become a nominee, eligible individuals must sign nomination form FSA-669A. The form includes a statement that the nominee agrees to serve if elected. This form is available at USDA Service Centers and [online](#).

Nomination forms for the 2013 election must be postmarked or received in the local USDA Service Center by close of business on Aug. 1, 2013.

Agricultural producers who participate or cooperate in an FSA program may be nominated for candidacy for the county committee. Individuals may nominate themselves or others as a candidate. Additionally, organizations representing minority and women farmers or ranchers may nominate candidates. Nomination forms are filed for the county committee of the office that administers a producer's farm records.

Who Can Vote

Agricultural producers of legal voting age may be eligible to vote if they participate or cooperate in any FSA program. A person who is not of legal voting age but supervises and conducts the farming operations of an entire farm also may be eligible to vote. More information about voting eligibility requirements can be found in the FSA fact sheet titled "FSA County Committee Election – Eligibility to Vote and Hold Office as a County Committee Member." Producers may contact their local USDA Service Center for more information.

Crop Reporting

After spring planting, producers should certify their 2013 acreage. Filing an accurate acreage report for all crops and land uses, including failed acreage and prevented planting acreage, can prevent the loss of benefits for a variety of programs.

Failed acreage must be reported within 15 days of the disaster event and before disposition of the crop. Prevented planting must be reported no later than 15 days after the final planting date.

Acreage reports are required for many Farm Service Agency programs. For crops enrolled in programs other than NAP (Noninsured Crop Disaster Assistance Program), acreage reports are to be certified by the November 15 deadline on small grains and a July 15 deadline on all other crops.

Acreage reports on crops covered by NAP are due in the county office by the earlier July 15 for small grains and January 15 for all other crops, or 15 calendar days before the onset of harvest or grazing of the specific crop acreage being reported.

CRP Sign-Up Starts May 20th

USDA will conduct a four-week general sign-up for the Conservation Reserve Program (CRP), beginning May 20 and ending on June 14. CRP protects the nation's natural resources through voluntary participation, while providing significant economic and environmental benefits to rural communities across the United States.

Currently, about 27 million acres are enrolled in CRP. Producers that are accepted in the program can receive cost-share assistance to plant long-term, resource-conserving covers and receive an annual rental payment for the length of the contract which is 10-15 years.

Contracts on 3.3 million acres of CRP are set to expire on Sept. 30, 2013. Producers with expiring contracts or producers with environmentally sensitive land are encouraged to evaluate their options under CRP.

For more information on CRP and other FSA programs, visit a local FSA service center or www.fsa.usda.gov

Online Data Tool for Public

The USDA Race, Ethnicity, and Gender Program Statistics query tool, known as REG Stats, is the official new tool of the United States Department of Agriculture (USDA) for making program application and participation rate data available to the public on the Internet.

The REG Stats website provides summary information about the number of individuals and entities that apply for, and receive, federal assistance from four USDA agencies or mission areas – the Farm Service Agency (FSA), the Natural Resources Conservation Service (NRCS), Rural Development (RD), and the Risk Management Agency (RMA).

The information available in REG Stats includes the number of applicants and recipients, by fiscal year, for USDA programs available to agricultural producers and landowners, categorized by race, ethnicity, and gender. Summary totals may be obtained nationally, or by state and county for the 50 states, as well as the U.S. territories.

Visit the online site: <http://www.regstats.usda.gov>

Farm Storage Facility Loans

The Farm Storage Facility Loan Program (FSFLP) allows producers of eligible commodities to obtain low-interest financing to build or upgrade farm storage and handling facilities.

The new maximum principal amount of a loan through FSFL is \$500,000. Participants are now required to provide a down payment of 15 percent, with CCC providing a loan for the remaining 85 percent of the net cost of the eligible storage facility and permanent drying and handling equipment. New loan terms of 7, 10 or 12 years are available depending on the amount of the loan. Interest rates for each term rate may be different and are based on the rate which CCC borrows from the U.S. Treasury Department.

Payments are available in the form of a partial disbursement and the remaining final disbursement. The partial disbursement will be available after a portion of the construction has been completed. The final fund disbursement will be made when all construction is completed. The maximum amount of the partial disbursement will be 50 percent of the projected and approved total loan amount.

Applications for FSFL must be submitted to the FSA county office that maintains the farm's records. An FSFL must be approved before any site preparation or construction can begin.

For more information about FSFL please visit your FSA county office or www.fsa.usda.gov.

Guaranteed Loan Program

The Farm Service Agency loan limit for the Guaranteed Loan Program has increased to \$1,302,000. The limit is adjusted annually based on data compiled by the National Agricultural Statistics Service.

The lending limit increases every year according to an inflation index. The maximum combined guaranteed and direct farm loan indebtedness has increased to \$1,602,000.

As a reminder, the one-time loan origination fee charged on FSA guaranteed farm ownership and operating loans is 1.5 percent of the guaranteed portion of the loan.

Producers should contact their local FSA County Offices with questions about farm loans.
