Coverage Selection for New 2014 Farm Bill Safety Net Programs Begins Nov. 17

Producers have until **March 31, 2015**, to choose the program best for their operation.

Farm owners and producers are reminded that the opportunity to choose between the new 2014 Farm Bill established programs, Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC), begins Nov. 17, 2014, and continues through March 31, 2015. The new programs, designed to help producers better manage risk, usher in one of the most significant reforms to U.S. farm programs in decades.

USDA helped create online tools to assist in the decision process, allowing farm owners and producers to enter information about their operation and see projections that show what ARC and/or PLC will mean for them under possible future scenarios. Farm owners and producers can access the online resources, available at www.fsa.usda.gov/arc-plc, from the convenience of their home computer or mobile device at any time.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain rice), safflower seed, sesame,

Please contact your local FSA Office for questions specific to your operation or county. soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity.

Dates associated with ARC and PLC that farm owners and producers need to know:

- Now through Feb. 27, 2015: Farm owners may visit their local Farm Service Agency office to update yield history and/or reallocate base acres.
- Nov. 17, 2014 to March 31, 2015: Producers make a one-time election between ARC and PLC for the 2014 through 2018 crop years.
- Mid-April 2015 through summer 2015: Producers sign contracts for 2014 and 2015 crop years.
- October 2015: Payments issued for 2014 crop year, if needed.

To learn more about which safety net options are most appropriate for specific farming operations, farmers can use new Web tools at www.fsa.usda.gov/arc-plc, which can be accessed from the convenience of a home computer or a mobile device at any time. To learn more about upcoming educational meetings, farmers can contact their local Farm Service Agency county office at <http://offices.sc.egov.usda.gov/locator/app>.

USDA Extends Dairy Margin Protection Program Deadlines

Enrollment Continues Through Dec. 5; Comments Accepted Until Dec. 15

USDA is extending the deadlines for the dairy Margin Protection Program. Farmers now have until **Dec. 5, 2014**, to enroll in the voluntary program, established by the 2014 Farm Bill. The program provides financial assistance to participating farmers when the margin – the difference between the price of milk and feed costs – falls below the coverage level selected by the farmer.

Producers are encouraged to use the online Web resource at www.fsa.usda.gov/mpptool to calculate the best levels of coverage for their dairy operation. The secure website can be accessed via computer, smartphone or tablet.

The U.S. Department of Agriculture (USDA) also extended the opportunity for public comments on both the Margin Protection Program and the Dairy Product Donation Program until Dec. 15, 2014.

Comments can be submitted to USDA via the regulations.gov website at <http://go.usa.gov/GJSA>.

Microloan Program

The Farm Service Agency (FSA) developed the Microloan (ML) program to better serve the unique financial operating needs of beginning, niche and small family farm operations.

USDA is raising the borrowing limit for the microloan program from \$35,000 to \$50,000, effective Nov. 7, 2014. The loan features a streamlined application process built to fit the needs of new and smaller producers. This loan program will also be useful to specialty crop producers and operators of community supported agriculture (CSA).

Eligible applicants can apply for a maximum amount of \$50,000 to pay for initial start-up expenses such as hoop houses to extend the growing season, essential tools, irrigation and annual expenses such as seed, fertilizer, utilities, land rents, marketing, and distribution expenses. As financing

needs increase, applicants can apply for a regular operating loan up to the maximum amount of \$300,000 or obtain financing from a commercial lender under FSA's Guaranteed Loan Program.

Individuals who are interested in applying for a microloan or would like to discuss other farm loan programs available should contact their local FSA office to set up an appointment with a loan official.

USDA Reminds Farmers of 2014 Farm Bill Conservation Compliance Changes

The 2014 Farm Bill implements a change that requires farmers to have a Highly Erodible Land Conservation and Wetland Conservation Certification (AD-1026) on file.

For farmers to be eligible for premium support on their federal crop insurance, a completed and signed AD-1026 certification form must be on file with the FSA. The Risk Management Agency (RMA), through the Federal Crop Insurance Corporation (FCIC), manages the federal crop insurance program that provides the modern farm safety net for American farmers and ranchers.

Since enactment of the 1985 Farm Bill, eligibility for most commodity, disaster, and conservation programs has been linked to compliance with the highly erodible land conservation and wetland conservation provisions. The 2014 Farm Bill continues the requirement that producers adhere to conservation compliance guidelines to be eligible for most programs administered by FSA and NRCS. This includes most financial assistance such as the new price and revenue protection programs, the Conservation Reserve Program, the Livestock Disaster Assistance programs and Marketing Assistance Loans and most programs implemented by FSA. It also includes the Environmental Quality Incentives Program, the Conservation Stewardship Program, and other conservation programs implemented by NRCS.

Many FSA and Natural Resource Conservation (NRCS) programs already have implemented this requirement and therefore most producers should already have an AD-1026 form on file for their associated lands. If however an AD-1026 form has not been filed or is incomplete then farmers are reminded of the deadline of June 1, 2015.

When a farmer completes and submits the AD-1026 certification form, FSA and NRCS staff will review the associated farm records and outline any additional actions that may be required to meet the required compliance with the conservation compliance provisions.

FSA recently released a revised form AD-1026, which is available at USDA Service Centers and online at: www.fsa.usda.gov. USDA will publish a rule later this year that will provide details outlining the connection of conservation compliance with crop insurance premium support. Producers can also contact their local USDA Service Center for information. A listing of service center locations is available at www.nrcs.usda.gov/wps/portal/nrcs/main/national/contact/local/.

New Farm Bill Offers Increased Opportunities for Producers

The 2014 Farm Bill offers increased opportunities for producers including farm loan program modifications that create flexibility for new and existing farmers. A fact sheet outlining modifications to the U.S. Department of Agriculture's (USDA) Farm Service Agency (FSA) Farm Loan Programs is available [here](#).

The Farm Bill expands lending opportunities for thousands of farmers and ranchers to begin and continue operations, including greater flexibility in determining eligibility, raising loan limits, and emphasizing beginning and socially disadvantaged producers.

Changes that will take effect immediately include:

- Elimination of the 15 year term limit for guaranteed operating loans.
- Modification of the definition of beginning farmer, using the average farm size for the county as a qualifier instead of the median farm size.
- Modification of the Joint Financing Direct Farm Ownership Interest Rate to 2 percent less than regular Direct Farm Ownership rate, with a floor of 2.5 percent. Previously, the rate was established at 5 percent.
- Increase of the maximum loan amount for Direct Farm Ownership Down Payment Loan Program from \$225,000 to \$300,000.
- Elimination of rural residency requirement for Youth Loans, allowing urban youth to benefit.
- Debt forgiveness on Youth Loans, which will not prevent borrowers from obtaining additional loans from the federal government.
- Increase of the guaranteed percentage on Conservation Loans from 75 to 80 percent and 90 percent for socially disadvantaged borrowers and beginning farmers.
- Microloans will not count toward direct operating loan term limits for veterans and beginning farmers.

Additional modifications must be implemented through the rulemaking processes. Visit the [FSA Farm Bill website](#) for detailed information and updates to farm loan programs.

USDA Announces Changes to Fruit, Vegetable and Wild Rice Planting Rules

Farm Service Agency (FSA) has announced fruit, vegetable and wild rice provisions that affect producers who intend to participate in certain programs authorized by the Agricultural Act of 2014.

Producers who intend to participate in the Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) programs are subject to an acre-for-acre payment reduction when fruits and nuts, vegetables or wild rice are planted on the payment acres of a farm. Payment reductions do not apply to mung beans, dry peas, lentils or chickpeas. Planting fruits, vegetables or wild rice on acres that are not considered payment acres will not result in a payment reduction. Farms that are eligible to participate in ARC/PLC but are not enrolled for a particular year may plant unlimited fruits, vegetables and wild rice for that year but will not receive ARC/PLC payments for that year. Eligibility for succeeding years is not affected.

Planting and harvesting fruits, vegetables and wild rice on ARC/PLC acreage is subject to the acre-for-acre payment reduction when those crops are planted on either more than 15 percent of the base acres of a farm enrolled in ARC using the county coverage or PLC, or more than 35 percent of the base acres of a farm enrolled in ARC using the individual coverage.

Fruits, vegetables and wild rice that are planted in a double-cropping practice will not cause a payment reduction if the farm is in a double-cropping region as designated by the USDA's Commodity Credit Corporation.

2014 MAL and LDP Requests

The USDA Farm Service Agency (FSA) is accepting requests for marketing assistance loans (MALs) and loan deficiency payments (LDPs) for eligible 2014 commodities.

MALs and LDPs for the 2014 crop year become available to eligible producers beginning with harvest/shearing season and extending through a specific commodity's final loan availability date. Sugar commodity loans for the 2014 crop became available to sugar processors on Oct. 1, 2014.

MALs and LDPs provide financing and marketing assistance for wheat, feed grains, soybeans, and other oilseeds, pulse crops, rice, peanuts, cotton, wool, mohair and honey. MALs provide producers interim financing after harvest to help them meet cash flow needs without having to sell their commodities when market prices are typically at harvest-time lows. A producer who is eligible to obtain a loan, but agrees to forgo the loan, may obtain an LDP if such a payment is available. Marketing loan provisions and LDPs are not available for sugar and extra-long staple cotton.

Before MAL repayments and LDP disbursements can be made, producers must meet the requirements of actively engaged in farming, cash rent tenant and member contribution.

Additionally, form CCC-902 and CCC-901 must be submitted for the 2014 crop year, if applicable, with a county committee determination and updated subsidiary files.

To be considered eligible for an LDP, producers must have form [CCC-633EZ](#), Page 1 on file at their local FSA Office before losing beneficial interest in the crop. Pages 2, 3 or 4 of the form must be submitted when payment is requested.

Please contact your local FSA office for additional eligibility requirements.

The 2014 Farm Bill also establishes payment limitations per individual or entity not to exceed \$125,000 annually on certain commodities for the following program benefits: price loss coverage payments, agriculture risk coverage payments, marketing loan gains (MLGs) and LDPs. These payment limitations do not apply to MAL loan disbursements.

Adjusted Gross Income (AGI) provisions were modified by the 2014 Farm Bill, which states that a producer whose total applicable three-year average AGI exceeds \$900,000 is not eligible to receive an MLG or LDP.

National and county loans rates for 2014 crops are posted on the FSA website at: www.fsa.usda.gov/pricesupport.

For more information, please visit a nearby USDA Service Center or FSA's website www.fsa.usda.gov.

Selling Land

If you plan on selling farmland, you should be aware of several consequences associated with FSA programs. For example, if you're planning to sell land that's enrolled in the Conservation Reserve Program, the buyer must agree to continue the enrollment. If the buyer doesn't want to continue the CRP contract, you might have to refund all of the payments you've received to date.

Reviewing program implications with your local Farm Service Agency staff before completing a sale of farmland is always a prudent precaution.

Important Dates to Remember

- **November 17th:** Certification Deadline for 2015 fall-seeded small grains (including wheat) and perennial forage
- **November 20th:** NAP Application Sales Closing Date for 2015 NAP perennial crops
- **November 27th:** Offices Closed in observance of Thanksgiving Holiday
- **December 5th:** Deadline to register for 2014 and/or 2015 Margin Protection Program (MPP)
- **January 15, 2015:** Certification deadline for Apples, Blueberries, Cherries, Grapes, Peaches
- **January 20, 2015:** Deadline to request early CRP contract termination
- **February 1, 2015:** NAP Application Sales Closing Date, 2015 NAP Onions
- **February 27, 2015:** Deadline to update ARC/PLC yield history and/or reallocate base acres
- **March 15, 2015:** NAP Application Sales Closing Date, 2015 NAP annual crops
- **March 31, 2015:** Final date to make Program Election for ARC/PLC
- **Continuous:** Farm Loan applications may be accepted at any time.
- **Continuous:** Continuous Conservation Reserve Program offers may be made at any time.
