Amendment 25

Approved by: Acting Deputy Administrator, Farm Programs

Amendment Transmittal

A Reasons for Amendment

Subparagraph 1 B has been amended to remove the reference to 67-FI.

Subparagraph 216 A has been amended to reflect that overpayments are no longer automatically sent to NRRS.

Subparagraph 217 A has been amended to provide that payment and overpayment information is available in the Common Payment Reports System.

Subparagraphs 217 B and D have been amended to add that the Pending Overpayment Report is updated.

Subparagraph 218 A has been amended to change the references for the Estimated Calculated Payment Report and the Payment History Report - Detail.

Subparagraphs 218 B, C, and D and paragraphs 219 and 220 have been withdrawn because the DCP-ACRE Payment Reports Selection has been removed from the FSA Applications page.

Subparagraph 221 C has been amended to reference 9-CM for accessing the Estimated Calculated Payment Report.

Subparagraph 221 D has been added to provide the information on the Estimated Calculated Payment Report.

Paragraphs 222 through 224 have been withdrawn because the Estimated Calculated Payment Report is now available through the Common Payment Reports.

Subparagraph 232 C has been added to provide the information on the Payment History Report - Detail.

Paragraph 235 has been withdrawn because the Payment History Report - Detail information was moved to paragraph 232.

Amendment Transmittal (Continued)

A Reasons for Amendment (Continued)

Subparagraph 573 A has been amended to provide that overpayment information is updated to the Pending Overpayment Report.

Exhibit 2 has been amended to provide that payment acres could be either 83.3 or 85 percent, as applicable for the program year.

Exhibit 6 has been amended to add the enrollment deadline for 2012.

Exhibit 29 has been amended to update the 2010 trigger determination for rice.

Exhibit 30 has been amended to update the 2010 per acre payment rate for rice.

Section 2 DCP and ACRE Direct Payments

216 DCP Direct and CC, and ACRE Direct, Payments

A Supporting Files for Integrated Payment Processing

The DCP direct and CC, and ACRE direct, payment process is a web-based integrated process that uses a wide range of information and other program determinations and values to determine whether a payment should be issued and the amount of gross payment, applicable reductions, and the net payment amount. For payments to be calculated correctly, all supporting files must be updated correctly, including **all** the following.

Type of Information	How Information Is Used for Payment Processing	Source
CCC-509 Data	The information from CCC-509 is used to compute the payment amount for the producer.	Web-based DCP-ACRE Contract System
Payment Eligibility Information	Used to determine whether the producer and/or member of a joint operation is eligible for payment for the year in which CCC-509 was filed.	Web-based Eligibility System
General Name and Address Information	Used to determine the producer's business type and general name and address information.	SCIMS
Entity and Joint Operation Information	Used to determine the following for the year in which CCC-509 is filed: <ul style="list-style-type: none"> • member contribution value • substantive change value • members and member's share of the following: <ul style="list-style-type: none"> • entities • general partnerships • joint ventures. 	Entity and Joint Operation control county *--mainframe or business file.--*
Combined Producer Information	Used to determine whether DCP direct and CC, and ACRE direct, producers or members of entities or joint operations are combined with other producers. This information is used to ensure the payment limitation is controlled properly.	Combined Producer System
Available Payment Limitation	Used to determine payment limitation availability.	Payment Limitation System
FAV acre for acre reductions and violations and reduction amounts	Used to determine whether the farm and producer have any of the following: <ul style="list-style-type: none"> • acre for acre reductions • planting violation amount • reporting reduction amount • maintenance reduction amount. 	Fruit and Vegetable Payment Reductions System
Cropland Reporting Indicator	Used to determine whether the producer has met Cropland Reporting provisions.	Compliance System
Payment rate for the commodity	Used to determine the payment rate for each crop on CCC-509.	Program Parameter Table
Financial Related Information	Calculated payment information is provided to NPS. *--Determined overpayment amount may be--* provided to NRRS.	NPS or NRRS

216 DCP Direct and CC, and ACRE Direct, Payments (Continued)

B Prerequisites for Payments

Certain actions must be completed to ensure that the producer is eligible for payment. The following provides actions that must be completed to issue payments properly. COC, CED, or designee shall ensure that the action is completed.

Step	Action
1	Ensure that CCC-509 has been approved and that the approval date has been recorded in the system according to paragraph 31.
2	Ensure that AD-1026 is on file for the applicable year for producers seeking benefits and the eligibility information is recorded in the web-based eligibility system.
3	Ensure that the applicable CCC-902 is on file and actively engaged determinations are completed according to 4-PL for the applicable year for producers and members of joint operations seeking benefits.
4	Ensure that CCC-926 is on file for the applicable year for producers seeking benefits and the certification information is recorded in the web-based eligibility system. See 3-PL (Rev. 1).
5	Ensure that all other eligibility determinations have been updated according to the determinations made by COC for producers and members of joint operations. See 3-PL (Rev. 1).
6	*--Ensure that joint operation and entity ownership structure information is updated correctly for the applicable year. See 2-PL or 3-PL (Rev. 1), as applicable.--*
7	Ensure that the member contribution and substantive change values are updated according to 4-PL.
8	Ensure that the combined producer files are updated correctly for the applicable year. See 3-PL (Rev. 1).
9	Ensure all adjustments to payment limitation have been updated for the producer or member. See 3-PL (Rev. 1).
10	Ensure that all assignments and joint payees have been updated in NPS if CCC-36, CCC-37, or both were filed for DCP or ACRE.

217 Payment Processing

A Computing Payment and Overpayment Amounts

The DCP direct and CC, and ACRE direct, payment process is an integrated process that reads a wide range of files to:

- determine whether a payment should be issued or if an overpayment has occurred
- calculate the following:
 - gross payment amount
 - reduction amounts
 - net payment amount
 - overpayment amount.

--The following describes the high level system processing sequence to calculate DCP-- direct and CC, and ACRE direct, payments for producers.

Step	Action
1	Payment is triggered according to subparagraph B.
2	Determine whether there is an unsigned payment for the farm and producer in NPS, and if so, cancel the payment in NPS.
3	Determine the gross payment amount for the farm, producer, and crop according to subparagraph C.
4	Determine whether the producer is an entity or joint operation, and if so, obtain member information, if applicable.
5	Determine whether the producer and/or members are eligible for payment.
6	Provide the following to direct attribution for each farm and producer: <ul style="list-style-type: none"> • gross payment amount for each crop • program specific reductions • 1 reason if producer is ineligible due to subsidiary eligibility provision.
7	Direct attribution will determine the following: <ul style="list-style-type: none"> • reduction amounts • payment limitation availability • net payment or overpayment amount • reasons for nonpayment or overpayment.
8	All net payment and overpayment amounts will be totaled to determine the net payment or overpayment for the farm and producer.
9	Determine whether e-Funds are available for the payment.
10	Provide the payment amount to NPS, or update the overpayment amount to the Pending Overpayment Report.
11	*--Update applicable information to the Common Payment Reports. See 9-CM, Part 5 for information about the Common Payment Reports.--*
***	***

217 Payment Processing (Continued)

B Triggering Payments

Payment will be “triggered” through events that occur throughout the system. As a result, processing will now be “behind the scenes” for the most part. Calculations and determinations will occur during the evening and nighttime hours without users intervention.

Trigger Type	Description
Initial	<p>Upon release of the payment software, a process will automatically run to determine all CCC-509’s that are approved for payment. This will initiate the process described in subparagraph A and does not require any County Office user interaction.</p> <ul style="list-style-type: none"> • Payments will be sent to NPS for certification and signature. •*--Overpayment will be updated to the Pending Overpayment Report.--*
Primary	<p>Once the initial payments are triggered, subsequent payments will be initiated when County Office users approve CCC-509. Entering the COC approval date initiates the payment process for the selected CCC-509’s.</p>
Secondary	<p>Payments that cannot be issued during any payment process are sent to the Nonpayment Register. If a condition causing the producer to be on the Nonpayment Register is corrected, the payment will be triggered to reprocess to determine whether the payment can be issued.</p>
Tertiary	<p>The payment system will periodically recalculate all payments.</p>

C Gross Payment Calculation by Crop

The gross payment for the farm, producer, and crop is determined by completing the following calculation for each crop the producer has a share in on CCC-509:

- payment acres, minus
- FAV reduction acres, times
- direct or CC yield, as applicable, times
- producer share, times
- advance or final payment rate, as applicable.

Round result to whole dollars.

Note: Gross payment amounts will be determined by the program application and will then be processed through direct attribution where subsidiary eligibility and other reductions are applied.

217 Payment Processing (Continued)

D Gross Payment Calculation for the Farm and Producer

All gross payment or overpayment amounts determined for each crop will be added together to arrive at 1 payment amount or overpayment amount for the farm and producer. The payment software will either provide a payment amount to NPS or an overpayment amount *--will be updated to the Pending Overpayment Report.--*

Example: The calculated crop amounts for the farm and producer are as follows:

- Corn \$100
- Sorghum \$400
- Wheat (\$200).

The calculated crop amounts are added together and a payment amount of \$300 is determined. \$300 will be sent to NPS for the farm and producer.

218 * * * DCP-ACRE Payment Reports

A Displaying or Printing DCP-ACRE Reports

DCP-ACRE Payment Reports are available to provide information about each payment, nonpayment, or overpayment. Most of the payment reports have information that is common between program areas so information about these reports is in 9-CM. The Estimated Calculated Payment Report and the Payment History Report - Detail have program specific data so information for these reports are in this handbook. DCP-ACRE payment report information is available according to the following.

Report Name	Type of Data	Reference
Estimated Calculated Payment Report	Live	*-9-CM, paragraph 52--*

221 Estimated Calculated Payment Report Process

A Introduction

The Estimated Calculated Payment Report will include information about calculating DCP or ACRE direct payment for each producer and crop in which the producer has an interest on the farm.

B Reviewing the Estimated Calculated Payment Report

County Offices shall access the Estimated Calculated Payment Report process to view or print the calculated payment information for the farm or producers on the farm with an interest in 1 or more crops. The Estimated Calculated Payment Report process allows County Offices to view or print the Estimated Calculated Payment Report.

C Accessing the Estimated Calculated Payment Report Process

572 ACRE ACRE Payments (Continued)**C ACRE Payment Triggers**

ACRE payments are issued when the following 2 conditions are met for a commodity, type, and practice.

- *--The first condition is when the State trigger (Exhibit 29) is met. The State trigger is--* met when the State ACRE Guarantee is greater than the Actual State Revenue. The State ACRE Guarantee is calculated by multiplying 90 percent times Benchmark State Yield times ACRE Guarantee Price. The Actual State Revenue is calculated by multiplying Actual State Yield times ACRE Price.
- The second condition is when the farm trigger is met. The farm trigger is met when the Farm ACRE Guarantee is greater than the Actual Farm Revenue. The Farm ACRE Guarantee is calculated by multiplying Benchmark Farm Yield times ACRE Guarantee Price plus Per Acre Paid Crop Insurance Premium. The Actual Farm Revenue is calculated by multiplying Actual Farm Yield times ACRE Price.

573 Payment Processing

A Computing Payment and Overpayment Amounts

The following describes the high level processing sequence the payment system uses to calculate ACRE ACRE payments for producers.

Step	System Action
1	Determine whether the State trigger condition has been met for the crop and practice. If it has, the system will proceed to step 2 for all farms with that particular crop and practice.
2	Determine whether the farm trigger condition has been met for the crop and practice. The system will proceed to step 3 for all farms with that particular crop and practice.
3	Calculate ACRE/ACRE payment for each crop and practice for all farms identified in step 2.
4	Determine what date the payment will be triggered for processing. Payments are issued at the end of the marketing year for each crop.
5	Determine whether eligibility requirements have been met. Note: The payment eligibility provisions that are applicable for ACRE/ACRE payments for 2009 and future years are provided in 9-CM, Exhibit 5.
6	Send the data determined in steps 2 through 5 to the common payment process. Note: The common payment process is described in 9-CM, Part 4.
7	All ineligible payments will be indicated on a Common Payment Report as described in 9-CM, Part 5.
8	*--System will provide the payment amount to NPS or update the overpayment amount to the Pending Overpayment Report.--*

Definitions of Terms Used in This Handbook

Approved Status

Approved status means CCC-509 with:

- shares equal to 100 percent
- producer signatures for all shares
- an enrollment date entered in the system
- a COC approval date entered in the system.

Base Acres

Base acres means, with respect to:

- a covered commodity on a farm, the number of acres of the crop established by the election of OW's of the farm according to the regulations set forth in 7 CFR Part 1412
- peanuts, the number of acres assigned to a farm by historic peanut producers according to the regulations in 7 CFR Part 1412.

Contract

Contract means CCC-509 and CCC-509 Appendix.

Enrolled Status

Enrolled status means a contract with:

- shares equal to 100 percent
- producer signatures for all shares
- an enrollment date entered in the system
- **no** COC approval date entered in the system.

Definitions of Terms Used in This Handbook (Continued)

Farm

Farm means a tract, or tracts, of land that are considered to be a separate operation with the same OO (owner/operator).

Home County

Home county means administrative county in the web-based environment.

Operator (OP)

OP means an individual, entity, or joint operation in general control of the farming operations on the farm during the current year as determined by COC.

Owner (OW)

OW means individual, entity, or joint operation that has legal ownership of farmland.

Payment Acres

--Payment acres mean 83.3 or 85 percent, as applicable for the program year, of the base acres-- on a farm.

Note: These are the acres on which direct payments and CC payments are made.

Producer

Producer means an OW, OP, landlord, tenant, or sharecropper who shares in the risk of producing a crop and is entitled to share in the crop available for marketing from the farm, or would have shared had the crop been produced. A producer includes a grower of hybrid seed.

User

User means county FSA employees with level II eAuthentication access and State Office administrative users, **except** where specifically noted.

DCP Direct, DCP CC, and ACRE Direct Troubleshooting Guide

The following table provides a guide for use in troubleshooting problems for DCP direct, DCP CC, and ACRE direct.

Note: This guide is **not** all inclusive.

Issue	System(s)	Reason	Solution	
Message, “(Producer Name) Cannot have a Signature Date After XXXX”, is displayed on the Consolidated by Producer Screen or Consolidated by Crop Screen.	DCP-ACRE Contract	<p>The County Office can only enter signature dates into the system if they were received by the enrollment deadline. The enrollment deadline for:</p> <ul style="list-style-type: none"> • 2009 is August 14, 2009 • 2010 is June 1, 2010 • 2011 is June 1, 2011 • *-2012 is June 1, 2012.--* <p>Note: See 1-DCP, subparagraph 445.5 C for late-file enrollment provisions for 2010 and subsequent crop years.</p>	Verify producer signed by signature date deadline.	
			IF the signature date was...	THEN...
			received by the enrollment deadline	enter signature date from the DCP or ACRE contract.
			not received by the enrollment deadline signature, enrollment, and approval date must be entered by the State Office administrative user.	
Message, “Failed to send message to the AS400, please try again in 5 minutes. If the problem persists, contact the help desk”, is displayed on the Consolidated by Producer Screen or Consolidated by Crop Screen.	DCP-ACRE Contract	There is an internal system error.	Contact the help desk immediately.	
Message, “DCP Connection Error”, is displayed on the Search by Producer or Farm Screen.	DCP-ACRE Contract			
System allows shares greater than 100 percent to be loaded.	DCP-ACRE Contract	The system was designed to allow for entry of shares greater than 100 percent. This is necessary in the event of a share dispute.	No action is necessary until the enrollment date is entered. The system will not allow for entry of an enrollment date if shares are greater than 100 percent.	
State Office administrative access has been requested but the user cannot access the “Waive Application” option.	DCP-ACRE Contract	The user has not been granted State Office administrative access.	Follow instructions in paragraph 50 to request State Office administrative access. The requestor will be contacted when access is granted.
