FSA Announces New Yield Data for Safety Net Calculations

Farmers can Update Yield History through Feb. 27, 2015

The U.S. Department of Agriculture Farm Service Agency (FSA) offers farmers new information to update program payment yields that will help them better select protections offered by the Agricultural Risk Coverage (ARC) and Price Loss Coverage (PLC) programs. The new programs, established by the 2014 Farm Bill, are cornerstones of the commodity farm safety, offering farmers protection when market forces cause substantial drops in crop prices and revenues.

The Farm Bill provides landowners with the option of updating their farm program payment yields and this is the first time that many producers have been able to update yields since 1986. FSA has worked with the Risk Management Agency (RMA) to make available certified yield data that producers can use to better calculate how the new safety net programs can offer the best protection against market swings.

Producers can check with their local FSA county office to see if data is available for them. This data belongs to the producer and only the producer associated with the crop insurance records will be provided this service. Updating yield history or reallocating base acres can occur until Feb. 27, 2015.

FSA also issued a reminder that from Nov. 17, 2014, to March 31, 2015, producers will make a one-time election of either ARC or PLC for the 2014 through 2018 crop years. For more information, producers are encouraged to make an appointment to go into their local FSA county office. To find a local FSA county office, visit offices.usda.gov. Additional information on the new programs is available at www.fsa.usda.gov/arc-plc.

county.

USDA Provides Greater Protection for Fruit, Vegetable and Other Specialty Crop Growers

Free Basic Coverage Plans and Premium Discounts Available for New, Underserved and Limited Income Farmers

Greater protection is now available from the Noninsured Crop Disaster Assistance Program for crops that historically have been ineligible for federal crop insurance. The new options, created by the 2014 Farm Bill, provide greater coverage for losses when natural disasters affect specialty crops such as vegetables, fruits, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, and energy crops.

Previously, the program offered coverage at 55 percent of the average market price for crop losses that exceed 50 percent of expected production. Producers can now choose higher levels of coverage, up to 65 percent of their expected production at 100 percent of the average market price.

The expanded protection will be especially helpful to beginning and socially disadvantaged producers, as well as farmers with limited resources, who will receive fee waivers and premium reductions for expanded coverage. More crops are now eligible for the program, including expanded aquaculture production practices, and sweet and biomass sorghum. For the first time, a range of crops used to produce bioenergy will be eligible as well.

To help producers learn more about the Noninsured Crop Disaster Assistance Program and how it can help them, USDA, in partnership with Michigan State University and the University of Illinois, created an online resource. The Web tool, available at www.fsa.usda.gov/nap, allows producers to determine whether their crops are eligible for coverage. It also gives them an opportunity to explore a variety of options and levels to determine the best protection level for their operation.

If the application deadline for an eligible crop has already passed, producers will have until Jan. 14, 2015, to choose expanded coverage through the Noninsured Crop Disaster Assistance Program. To learn more, visit the Farm Service Agency (FSA) website at www.fsa.usda.gov/nap or contact your local FSA office at offices.usda.gov. The Farm Service Agency (FSA), which administers the program, also wants to hear from producers and other interested stakeholders who may have suggestions or recommendations on the program. Written comments will be accepted until Feb. 13, 2015 and can be submitted through www.regulations.gov.

USDA Disaster Assistance to Help Thousands of Honeybee, Livestock and Farm-Raised Fish Producers

2014 Farm Bill Program Offers Producers in Over 40 States Relief for 2012 and 2013 Losses

Nearly 2,500 applicants will receive disaster assistance through the Emergency Assistance for Livestock, Honeybees, and Farm-Raised Fish Program (ELAP) for losses suffered from Oct. 1, 2011, through Sept. 30, 2013.

The program, re-authorized by the 2014 Farm Bill, provides disaster relief to livestock, honeybee, and farm-raised fish producers not covered by other agricultural disaster assistance programs. Eligible losses may include excessive heat or winds, flooding, blizzards, hail, wildfires, lightning strikes, volcanic eruptions, and diseases, or in the case of honeybees, losses due to colony collapse disorder. Beekeepers, most of whom suffered honeybee colony losses, represent more than half of ELAP recipients.

The Farm Bill caps ELAP disaster funding at \$20 million per federal fiscal year. To accommodate the number of requests, which exceeded funds available for each of the affected years, payments will be reduced to ensure that all eligible applicants receive a prorated share of assistance.

The following ELAP Fact Sheets (by topic) are available online:

- ELAP for Farm-Raised Fish Fact Sheet

- ELAP for Livestock Fact Sheet
- ELAP for Honeybees Fact Sheet

To view these and other FSA program fact sheets, visit the FSA fact sheet web page at www.fsa.usda.gov/factsheets.

For local FSA Service Center contact information, please visit: offices.usda.gov.

Important ARC/PLC Program Deadlines Approaching

Producers are reminded that the deadline to update yield history and/or reallocate base acres is Feb. 27, 2015. Farm owners and producers can choose between the new 2014 Farm Bill established programs, Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) through March 31, 2015. The new programs, designed to help producers better manage risk, usher in one of the most significant reforms to U.S. farm programs in decades.

USDA helped create online tools to assist in the decision process, allowing farm owners and producers to enter information about their operation and see projections that show what ARC and/or PLC will mean for them under possible future scenarios. Farm owners and producers can access the online resources, available at www.fsa.usda.gov/arc-plc, from the convenience of their home computer or mobile device at any time.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity.

Dates associated with ARC and PLC that farm owners and producers need to know:

- Now through Feb. 27, 2015: Farm owners may visit their local Farm Service Agency office to update yield history and/or reallocate base acres.
- Now through March 31, 2015: Producers make a one-time election between ARC and PLC for the 2014 through 2018 crop years.
- Mid-April 2015 through summer 2015: Producers sign contracts for 2014 and 2015 crop years.
- October 2015: Payments issued for 2014 crop year, if needed.

To learn more about which safety net options are most appropriate for specific farming operations, farmers can use new Web tools at www.fsa.usda.gov/arc-plc, which can be accessed from the convenience of a home computer or a mobile device at any time. To learn more about upcoming educational meetings, farmers can contact their local Farm Service Agency county office at <http://offices.sc.egov.usda.gov/locator/app>.

USDA Reminds Farmers of 2014 Farm Bill Conservation Compliance Changes

The 2014 Farm Bill implements a change that requires farmers to have a Highly Erodible Land Conservation and Wetland Conservation Certification (AD-1026) on file.

For farmers to be eligible for premium support on their federal crop insurance, a completed and signed AD-1026 certification form must be on file with the FSA. The Risk Management Agency (RMA), through the Federal Crop Insurance Corporation (FCIC), manages the federal crop insurance program that provides the modern farm safety net for American farmers and ranchers.

Since enactment of the 1985 Farm Bill, eligibility for most commodity, disaster, and conservation programs has been linked to compliance with the highly erodible land conservation and wetland conservation provisions. The 2014 Farm Bill continues the requirement that producers adhere to conservation compliance guidelines to be eligible for most programs administered by FSA and NRCS. This includes most financial assistance such as the new price and revenue protection programs, the Conservation Reserve Program, the Livestock Disaster Assistance programs and Marketing Assistance Loans and most programs implemented by FSA. It also includes the Environmental Quality Incentives Program, the

Conservation Stewardship Program, and other conservation programs implemented by NRCS.

Many FSA and Natural Resource Conservation (NRCS) programs already have implemented this requirement and therefore most producers should already have an AD-1026 form on file for their associated lands. If however an AD-1026 form has not been filed or is incomplete then farmers are reminded of the deadline of June 1, 2015.

When a farmer completes and submits the AD-1026 certification form, FSA and NRCS staff will review the associated farm records and outline any additional actions that may be required to meet the required compliance with the conservation compliance provisions.

FSA recently released a revised form AD-1026, which is available at USDA Service Centers and online at: www.fsa.usda.gov. USDA will publish a rule later this year that will provide details outlining the connection of conservation compliance with crop insurance premium support. Producers can also contact their local USDA Service Center for information. A listing of service center locations is available at offices.usda.gov.

USDA Announces New Support for Beginning Farmers and Ranchers

Department Implementing New Farm Bill Programs, Unveiling New Centralized Online Resource to Support Next Generation of Farmers

USDA has announced the implementation of new Farm Bill measures and other policy changes to improve the financial security of new and beginning farmers and ranchers. USDA also unveiled www.USDA.gov/newfarmers, a new website that will provide a centralized, one-stop resource where beginning farmers and ranchers can explore the variety of USDA initiatives designed to help them succeed.

USDA's www.usda.gov/newfarmers has in depth information for new farmers and ranchers, including: how to increase access to land and capital; build new market opportunities; participate in conservation opportunities; select and use the right risk management tools; and access USDA education, and technical support programs. These issues have been identified as top priorities by new farmers. The website will also feature instructive case studies about beginning farmers who have successfully utilized USDA resources to start or expand their business operations.

Today's policy announcements in support of beginning farmers and ranchers include:

- Waiving service fees for new and beginning farmers or ranchers to enroll in the Non-Insured Crop Disaster Assistance Program (NAP) for the 2014 crop year. NAP provides risk management tools to farmers who grow crops for which there is no crop insurance product. Under this waiver, announced via an [official notice](#) to Farm Service Agency offices, farmers and ranchers whom already enrolled in NAP for the 2014 crop year and certified to being a beginning farmer or social disadvantaged farmer are eligible for a service fee refund.
- Eliminating payment reductions under the [Conservation Reserve Program](#) (CRP) for new and beginning farmers which will allow routine, prescribed, and emergency grazing outside the primary nesting season on enrolled land consistent with approved conservation plans. Previously, farmers and ranchers grazing on CRP land were subject to a reduction in CRP payments of up to 25 percent. Waiving these reductions for new and beginning farmers will provide extra financial support during times of emergency like drought and other natural disasters.
- Increasing payment rates to beginning farmers and ranchers under Emergency Assistance for [Livestock, Honeybees and Farm-Raised Fish Program \(ELAP\)](#). Under this provision, beginning farmers can claim up 90 percent of losses for lost livestock, such as bees, under ELAP. This is a fifty percent increase over previously available payment amounts to new and beginning farmers.

In the near future, USDA will also announce additional crop insurance program changes for beginning farmers and ranchers – including discounted premiums, waiver of administrative fees, and other benefits.

Additional information about USDA actions in support of beginning farmers and ranchers is available [here](#).

New Farm Bill Offers Increased Opportunities for Producers

The 2014 Farm Bill offers increased opportunities for producers including farm loan program modifications that create flexibility for new and existing farmers. A fact sheet outlining modifications to the U.S. Department of Agriculture's

(USDA) Farm Service Agency (FSA) Farm Loan Programs is available [here](#).

The Farm Bill expands lending opportunities for thousands of farmers and ranchers to begin and continue operations, including greater flexibility in determining eligibility, raising loan limits, and emphasizing beginning and socially disadvantaged producers.

Changes that will take effect immediately include:

- Elimination of the 15 year term limit for guaranteed operating loans.
- Modification of the definition of beginning farmer, using the average farm size for the county as a qualifier instead of the median farm size.
- Modification of the Joint Financing Direct Farm Ownership Interest Rate to 2 percent less than regular Direct Farm Ownership rate, with a floor of 2.5 percent. Previously, the rate was established at 5 percent.
- Increase of the maximum loan amount for Direct Farm Ownership Down Payment Loan Program from \$225,000 to \$300,000.
- Elimination of rural residency requirement for Youth Loans, allowing urban youth to benefit.
- Debt forgiveness on Youth Loans, which will not prevent borrowers from obtaining additional loans from the federal government.
- Increase of the guaranteed percentage on Conservation Loans from 75 to 80 percent and 90 percent for socially disadvantaged borrowers and beginning farmers.
- Microloans will not count toward direct operating loan term limits for veterans and beginning farmers.

Additional modifications must be implemented through the rulemaking processes. Visit the [FSA Farm Bill website](#) for detailed information and updates to farm loan programs.

Farm Bill Allows Early Termination for Certain CRP Contracts

The Farm Service Agency reminds producers with acres under contract through the Conservation Reserve Program (CRP) that they can apply for early contract termination, as required by the 2014 Farm Bill. The deadline to request early CRP contract termination is Jan. 30, 2015.

This is a unique opportunity to request early termination afforded by the 2014 Farm Bill. The earliest effective date for this early termination is October 1, 2014. The requesting CRP contract must have been in effect for at least five years and additional eligibility conditions must be met to qualify. The 2014 Farm Bill identifies a list of 10 exceptions whereby land will not be eligible for the early termination provisions. For a complete list of these exceptions, please view the program fact sheet online at http://www.fsa.usda.gov/Internet/FSA_File/crp_opt_out_fact_sht.pdf

Once a CRP contract termination request is approved by the FSA County Committee, the decision may not be reversed and the terminated contract will not be reinstated. Once the land is no longer considered under the CRP contract all participants must meet HEL/WC and other conservation compliance provisions for all associated lands.

For more information or to verify eligibility for early termination (opt-out) for existing CRP contracts, please contact your local FSA office. For local FSA Service Center contact information, please visit: offices.usda.gov.

Filing for NAP Losses

The CCC-576, Notice of Loss, is used to report failed acreage and prevented planting and may be completed by any producer with an interest in the crop. Timely filing a Notice of Loss is required for all crops including grasses. For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP) and crop insurance, you must file a CCC-576, Notice of Loss, in the FSA County Office within 15 days of the occurrence of the disaster or when losses become apparent.

If filing for prevented planting, an acreage report and CCC-576 must be filed within 15 calendar days of the final planting date for the crop.

Loans for the Socially Disadvantaged

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for members of socially disadvantaged applicants.

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, socially disadvantaged groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

USDA is an equal opportunity provider and employer. To file a complaint of discrimination, write: USDA, Office of the Assistant Secretary for Civil Rights, Office of Adjudication, 1400 Independence Ave., SW, Washington, DC 20250-9410 or call (866) 632-9992 (Toll-free Customer Service), (800) 877-8339 (Local or Federal relay), (866) 377-8642 (Relay voice users).
