Acreege Reporting

Acreege reporting time will soon be here. Filing an accurate acreege report for all crops and land uses, including failed acreege and prevented planting acreege, can prevent the loss of benefits for a variety of programs.

Failed acreege must be reported within 15 days of the disaster event and before disposition of the crop. Prevented planting must be reported no later than 15 days after the final planting date.

Acreege reports are required for many Farm Service Agency programs. For crops other than NAP (Noninsured Crop Disaster Assistance Program) crops, acreege reports have been extended to **August 14, 2009**.

DCP & ACRE Enrollment Deadline

Signup for the 2009 Direct and Counter-cyclical Payment (DCP) Program has been extended until August 14, 2009. FSA will not accept any late-filed applications. Signup in the ACRE option is also available through **August 14, 2009**.

Livestock Indemnity Program

The Livestock Indemnity Program (LIP) provides assistance to producers for livestock deaths that result from disaster. Using funds from the Agricultural Disaster Relief Trust Fund established under section 902 of the Trade Act of 1974, the program is administered by the USDA Farm Service Agency (FSA). LIP compensates livestock owners and contract growers for livestock death losses in excess of normal mortality due to adverse weather, including losses due to hurricanes, floods, blizzards, disease, wildfires, extreme heat and extreme cold. Eligible losses must have occurred on or after Jan. 1, 2008, and before Oct. 1, 2011.

The following table provides the final dates to file a notice of loss and/or application for payment for either 2008 or 2009 livestock losses.
