Crop Reporting Deadline Nov 15, 2015

The annual timely and accurate reporting of acres for all crops and land uses, including failed acreage, can prevent loss of benefits for a variety of Farm Service Agency programs, including ARC/PLC.

Conservation Reserve Program (CRP) acreage must be reported to receive annual rental payments. Crop acreage for Non-insured Crop Disaster Assistance Program (NAP) must also be reported.

Crop reports, form FSA-578, Report of Acreage, must account for all cropland on a farm, whether idle or planted. In Wyoming, producers had until July 15, 2015 to timely file their 2015 acreage reports for spring seeded crops and CRP. Reports can still be filed, but may be subject to a late-filing fee.

2015 and subsequent years' acreage reporting deadlines

- Spring seeded crops and CRP – July 15
- Perennial Forage, PRF, Fall Wheat, and all other Fall-Seeded Small Grains – November 15

This means your 2016 perennial hay/forage crops and winter wheat reporting deadline is November 15, 2015.

Non Insured Assistance Program Notice of Loss

A reminder please be aware that CCC-576, Notice of Loss must be filed within 15 days after weather related date of loss or damage to the crop first becomes apparent. The Notice of Loss should contain information on the crop or commodity, what has been or will be done with the crop acreage or commodity, and a record of the production. If you have any questions, please contact the Park County Farm Service Agency at 307-754-9411, ext 2.
