30 Offsets**A Basic Provisions**

Offsets are applicable for amounts owed CCC, FSA, or other creditors. The offset amount may be shown on CCC-679 or established as the result of a claim against the producer.

Make administrative offsets from loan or LDP proceeds owed to producers, if appropriate.

B Joint Disbursement of Loan Proceeds

The balance of the loan proceeds may be disbursed jointly to the producer and lienholder **after** applicable administrative offsets to CCC, FSA, or other creditor agencies according to 58-FI, have been made when the lienholder requests joint disbursement on CCC-679 for:

- recorded lien
- unrecorded lien, if **actual** notice of lien is given to the County Office.

For other creditor agency debts received in the County Office:

- **before** the filing date of any recorded lien or notification of an unrecorded lien, the lienholder **must** agree to the creditor agency debt offset **before** disbursement of loan proceeds jointly to the producer and lienholder by checking CCC-679, item 5, block (c)
- **after** the filing date of any recorded lien or notification of an unrecorded lien, the creditor agency debt shall be offset **only** if the lienholder agrees to disburse the loan proceeds solely to the producer by checking CCC-679, item 5, block (a).

30 Offsets (Continued)

C Authorizing Offsets

A loan disbursement can be offset to provide for charges other than in-handling, if the warehouse receipt indicates in-handling charges have been provided for or paid.

If using rice EWR's, the prepaid in-handling indicator **must** be set to "Y" to indicate in-handling charges have been provided for or paid, for the quantity to be eligible for a warehouse-stored MAL.

Producers **must** provide acceptable documentation specifying that all in-handling charges have been provided for or paid **before** either of the following:

- a warehouse-stored MAL will be disbursed for the commodity
- recording settlement of a forfeiture farm-stored MAL.

Note: See subparagraph 540 E.

Offsets may be made for amounts contained on a separate statement of unpaid charges, or for a separate bill for unpaid charges, if **both** of the following apply:

- charges on the statement or bill are associated with other than handling of the commodity represented by the warehouse receipt
- charges have been approved by DAFP.

These charges are **not** considered a lien, but **must** be included on CCC-679, item 5, *-block (c), if an offset will be made for the charges (paragraph 505).--*

If an offset applies, do **not** disburse the loan unless the lienholder agrees to the offset on CCC-679 by checking item 5, block (a) or (c). If any lienholder checks item 5, block (b), the loan shall **not** be approved.

D Offsets from Other Program Payments

A producer with an outstanding MAL may request the County Office to offset other specific payments to apply to a specific outstanding MAL. Any requests **must** be writing.

If requested, County Office shall:

- set the "Other Agency Claim" flag in Financial Services
- request applicable payment be made to CCC and sent to County Office
- apply to applicable outstanding MAL as a "lump sum" repayment
- **not** establish a receivable in NRRS to offset a payment.

Note: The producer's request is only applicable if the commodity is still in storage.

--34 Payment and AGI Limitation for 2014-2018 Crops*A Payment Limitation for 2014-2018 Crops--***

* * * For the 2014 through 2018 crop years, there are payment limitations on LDP's, and market loan gains associated with the MAL program.

The total amount of payments received, directly or indirectly, by a person or legal entity (except joint ventures or general partnerships), for all commodities other than peanuts, is limited to no more than \$125,000 annually, for a combination of the following programs:

- price loss coverage
- agricultural risk coverage
- market loan gains
- LDP's.

A person or legal entity that receives payments for peanuts, directly or indirectly, has a separate \$125,000 payment limit annually for the same programs.

Payment limitations do **not**:

- apply to MAL disbursements
- prohibit individual or entities from receiving an MAL, but the MAL **must** be repaid at principal plus interest
- apply to loan forfeitures because indirect benefits realized by producers are **not** applicable.

Note: There was **not** a payment limitation for market loan gains and LDP's for the 2008 through 2013 crop years.

***--B AGI Limitation Rule for 2014-2018 Crops**

A person or legal entity shall **not** be eligible to receive market loan gains or LDP benefits--* during the **2014 through 2018** crop years if the average AGI exceeds \$900,000.

Exception: The person or entity is eligible for MAL, but the loan **must** be repaid at principal plus interest.

Part 2 Common Loan and LDP Provisions

Section 1 Producer Eligibility

200 Eligible Producers

A Definition of Eligible Producer

[7 CFR 1421.4] Eligible producer means a person or legal entity that:

- has complied with annual program requirements including:
 - reporting acreage for **all** cropland on the farms according to 2-CP

Notes: FSA-578's **must** be obtained for the specific commodity on the farm **before** MAL disbursements and LDP benefits are received for that specific commodity. Report acreage, according to 2-CP, for all cropland on the farm on which the crop pledged as collateral or LDP was produced by the applicable final reporting date. Failure to report all cropland on a farm shall be considered noncompliance with program requirements and considered a violation according to 2-CP, Part 2, and all production from the farm is ineligible for LDP and MAL.

If there are 2 or more **separate** operations under the **same** farm number in the same County Office, a reconstitution should be performed according to 10-CM.

The ineligible farm numbers **must not** be included on CCC-633 EZ, CCC-666, CCC-677, or CCC-678.

See 2-CP, paragraphs 318 and 380.5 for information on a CARS report for identifying "Farms with Unreported Cropland".

- completing AD-1026 according to 6-CP for producer and all affiliated persons

* * *

- *--completing CCC-941 for producer and all interest holders in a legal entity according to 5-PL--*

200 Eligible Producers (Continued)**A Definition of Eligible Producer (Continued)**

- completing applicable CCC-902 according to * * * 5-PL

Notes: CCC-902 is required for foreign person determination on both loans and LDP's. See subparagraph 203 A.

CCC-902, and CCC-901 if an entity, is required for * * * market loan gains and LDP's. In addition, the COC **must** make the following determinations:

- actively engaged in farming
 - cash rent tenant
 - member contribution.
- has a beneficial interest in the eligible commodity for which a loan or LDP is requested
 - shares in the risk of producing the applicable commodity.

Note: See Exhibit 4.

The person or legal entity may be any of the following:

- landowner
- landlord or waterlord
- tenant
- sharecropper.

Exception: Beginning with the 2014 crop year, States, local governments, political *--subdivisions, and agencies thereof, are eligible for loans, market loan gains,--* and LDP's with respect to land owned by the State, if the payments and benefits are used to support public schools. See 5-PL paragraph 174 for additional information.

Legal entity means the entity either:

- owns land or an agricultural commodity, product, or livestock
- produces an agricultural commodity, product, or livestock.

202 Delinquent Federal Nontax Debtor (Continued)

F DCIA Questions and Answers (Continued)

Q4. If a producer forwards the MAL disbursement or payment from LDP to cover part or all of the producer's delinquent Federal nontax debt, can LDP or MAL be issued?

A4. Yes, as long as an approved payment agreement has been completed according to 58-FI and the MAL disbursement or payment from LDP is applied to the delinquent debt under the terms of the approved payment agreement.

Notes: It is the creditor agency and the producer who develop the terms in the approved payment agreement that will resolve the delinquent Federal nontax debt. If the LDP will resolve the delinquent Federal nontax debt in full or in part, the producer may apply the LDP to the delinquent Federal nontax debt and make acceptable payment arrangements with the creditor for the remainder of the delinquent Federal nontax debt. For FLP purposes, at the time of disbursement LDP or MAL **must** cure the delinquency in full.

If a portion of the debt has been written off, after the person has paid the debt in part and where the creditor agency accepts this partial payment as a compromise instead of payment in full, the entire debt would be deemed resolved.

Q5. If a producer repays MAL and a market gain is earned and it is later discovered that the producer had a delinquent Federal nontax debt at the time of the MAL repayment, is the producer entitled to retain market gain?

A5. No. The producer **must** repay the market gain with interest since it was discovered that he/she had a delinquent Federal nontax debt at the time of MAL repayment.

Q6. If 2 producers sign the same CCC-633 EZ, page 2 and Producer A is not delinquent debtor, but Producer B has a delinquent Federal nontax debt, can FSA pay Producer A his/her share of LDP?

A6. Yes. Producer A is entitled to receive his/her share of LDP and, if Producer B resolves the delinquent Federal nontax debt before the final loan availability date, he/she then will be entitled to receive his/her share of LDP.

203 Eligible Foreign Person

A Foreign Person Eligibility

See * * * 5-PL to determine eligibility requirements for foreign persons.

The applicable CCC-902 is needed to be on file at the time of MAL disbursement or LDP request to determine foreign person status.

B Handling Disbursements Involving an Ineligible Foreign Person

If a County Office determines that an ineligible foreign person has received a loan or LDP disbursement, the County Office shall follow this table.

IF a loan or LDP has been disbursed to...	THEN...
an ineligible foreign person	notify the producer according to Exhibit 11, subparagraph M.

204 Eligible CMA's

A Approved CMA's

[7 CFR Part 1425] CMA's approved to participate in loan and LDP programs may obtain loans and LDP's for their eligible producer members.

An approved CMA is considered an eligible producer. See 1-CMA for approved CMA's and commodities.

B Determining Producer Eligibility

If program year requirements are in effect for the crop year, producer eligibility will be determined according to 1-CMA, Part 7.

785 **Loan Repayment Rates**

A Determining Market Loan Repayment Rates

See the following subparagraphs for examples on how to calculate repayment rates:

- subparagraphs H and I for **wheat**
- subparagraph J for **crambe, mustard seed, rapeseed, safflower, and sesame seed**
- subparagraph K for **pulse crops (lentils, dry peas, and small and large chickpeas).**

B 30-Calendar-Day Method

CCC determines market loan repayment rates based on average market prices during the preceding 30-calendar-day period.

For:

- **corn, grain sorghum, soybeans, barley, oats, canola, flaxseed, oil and non-oil sunflower seed, crambe, mustard seed, rapeseed, safflower, and sesame seed**, the 30-calendar-day method reflects a 30-calendar-day moving average of all terminal market prices for the crop, adjusted by the difference between the applicable national loan rate and county loan rate
- **wheat**, the 30-calendar-day method reflects a 30-calendar-day moving average of all terminal market prices for the specific class, adjusted by the difference between the applicable national average loan rate by class and county loan rate by class.

Notes: The following displays the 2015 wheat national average loan rates by class.

Wheat Class	*--2015 National Average Loan Rate (Per Bu.)--*
Durum	\$2.74
Hard Red Spring	\$3.00
Hard Red Winter (HRW)	\$3.02
Soft Red Winter	\$2.68
Soft White	\$2.99

See subparagraph L for a table of terminal markets by commodity.

Intentional removal or disposition means the deliberate removal or disposition of loan collateral.

Isolated Farm-Stored Lot

Isolated farm-stored lot means a remote structure storing a nonrecourse MAL where a UGRSA warehouse to accept delivery to CCC at maturity is a great distance away and it is not cost effective to pay excess haul.

LDP

LDP means a payment made to a producer who, although eligible to obtain a CCC commodity loan, agrees to forgo the loan in return for a payment on the eligible commodity.

LDP Amount

LDP amount means the difference between the county loan rate and CCC-determined value for the applicable commodity or class of commodity times the eligible quantity.

MAL, Market Loan Gain, and LDP Eligibility Requirements

The following table lists the specific eligibility requirements **required** for MAL disbursements and principal and interest repayments, MAL market loan gain repayments, and LDP's, and the forms required.

Eligible Grain Sorghum Varieties

A Determining Eligible Grain Sorghum Varieties

Each year, grain sorghum varieties are reviewed and updated to determine eligibility and yield information for loans and LDP's.

Grain sorghum varieties are as follows:

- dual purpose, having a yield potential equal to 100 percent of hybrid varieties
- dual purpose, having a yield potential equal to 80 percent of hybrid varieties
- sterile varieties
- photo-period sensitive varieties
- ineligible varieties.

The following categories will be used to determine eligibility of grain sorghum (dual purpose varieties) for LDP's and MAL's.

- ***--Category I** - Non-Tannin Sorghum for grain or forage **is eligible** regardless of parentage or grain yield.
- **Category II** - Tannin Sorghum for grain or forage **is eligible** regardless of parentage or grain yield, but if harvested, grain **must** be identity-preserved and reported.
- **Category III** - Tannin Sorghum used for grazing **is not eligible** for LDP's or any programs.

Note: Forage is only eligible for LDP.--*

B Assigning Yield Guidelines

COC's shall assign yield for grain sorghum (dual purpose variety), harvested as other than grain, to:

- be equivalent to the potential whole grain yield for that crop
- reflect disaster conditions, as applicable.

Producers **must** provide documentation, such as seed tickets and invoices, for grain sorghum (dual purpose varieties) harvested as other than grain to substantiate the variety planted and harvested.

- ***--Note:** Dual purpose grain sorghum varieties are added to the 100 percent yield potential list (subparagraph D) when the specific variety is in a documented field trial conducted by an unbiased third party, and the seed company specifically requests a grain yield of the selected variety with the resulting yield equal or greater, to a set yield. FSA has been using the Texas Panhandle Forage Sorghum Silage Trial conducted at the Bushland Facility by Texas A & M University to update the lists in subparagraph D through H.--*

Eligible Grain Sorghum Varieties (Continued)

C Methods for Assigning the Yield

COC's shall use the following methods to assign the yield if the variety of grain sorghum (dual purpose variety) is eligible for LDP.

IF the producer harvested...	THEN assign the yield based on...
some dual purpose acreage of the crop on the farm for grain	the acreage of dual purpose grain sorghum harvested as grain.
dual purpose acreage of the crop on the farm as other than grain	regular hybrid grain sorghum harvested on the farm adjusted according to paragraph D. Note: If no grain sorghum is harvested for grain on the farm, COC establishes a yield based upon COC judgment and knowledge of practices and growing conditions in the county; this must be documented in the COC minutes.

Notes: The yields assigned by COC shall **not** exceed the actual yield for farms in the area with similar management practices that harvested the crop and variety for grain.

Assigning yields based on 3 similar farms is no longer authorized.

D Dual Purpose Grain Sorghum Varieties With 100 Percent Yield Potential

The dual purpose grain sorghum varieties listed in the following table have yield potential equal to 100 percent of hybrid varieties. County Offices shall:

- make LDP eligibility determinations
- advise seed companies, who believe they have eligible varieties **not** listed in the following table, to contact the State Office and provide information about plant characteristics and forage and grain yield potentials.

Note: Assign a yield of 100 percent of the grain yield using the methods in subparagraph C.

F Sterile Grain Sorghum Varieties

Sterile varieties of grain sorghum are listed in the following table. The producer **must** provide documentation to COC that shows the crop was planted with a pollinator and that 90 percent or more of the plants could produce a grain that would be classified as grain sorghum using the Official United States Standards for Grain.

Assign a yield based on 80 percent of the yield determined by using the methods in subparagraph C. County Offices shall:

- make LDP eligibility determinations
- advise seed companies, who believe they have eligible varieties **not** listed in the following table, to contact the State Office and provide information about plant characteristics and forage and grain yield potentials
- notify the State Office of any varieties **not** listed in this table that may be sterile.
