Marie Marty Selected as Ashland County FSA Executive Director

COLUMBUS, Ohio -- March 7, 2016 -- State Executive Director for the Ohio Farm Service Agency (FSA), Steve Maurer, announced that Marie Marty was selected as the County Executive Director (CED) for the Ashland County FSA Office, effective December 27, 2015.

Marty began her career with the Wayne County FSA as a program technician in 2007 and was responsible for implementing various disaster, price support, payment limitation, Price Loss Coverage (PLC) and the Agricultural Risk Coverage (ARC) programs. In 2011, she graduated from Colorado Technical University Online with a Bachelor of Science Degree in business administration.

Marty and her husband own a family farm in Wayne County and raise corn, soybeans and hay for use in their club calf and show pig operation. She enjoys working with the local youth in her 4-H club as well as helping her daughter with her projects. When Marty is not busy on the farm or with 4-H, she also coaches Amateur Athletic Union (AAU) basketball and enjoys shopping and spending time with her family.

In 2015, Marty was accepted into the County Operations Trainee (COT) program for Ohio and traveled throughout the state to study FSA programs and learn county office operations. After completing the training program, she was selected by the Ashland County FSA Committee to serve as CED.

Marty looks forward to serving the producers of Ashland County.
