Welcome to the Maine State USDA FSA Home Page. As State Executive Director (SED), I have made supporting our Maine farmers through our programs and loans a top priority. I have instructed FSA employees to remain focused on our mission of service to Maine farmers. The new Micro Loan program and our expanded Farm Storage Facility Loans have given us new tools to assist beginning and exiting Maine farms in meeting their financial needs.

The FSA staff is committed to a high level of customer service and I, as SED, am very proud of the service they provide every day. FSA is unique in that we have an elected County Committee, comprised of producers from the county in which they live, who oversee the implementation of our many and varied programs that have a direct impact on most of the farmers in the state. I am excited about the opportunities for Maine agriculture, from traditional Maine agricultural to the new and rapidly growing aqua cultural industries. Maine is positioned well for our new younger farmers to enter the industry and not only make a good living but be part of a vibrant agricultural rural community in Maine.

I encourage you to search the numerous links we have on the site and revisit us from time to time as we will be adding new sources of information when available. Please feel free to contact my office if you have questions or suggestions.
