

Use the link below to find out more about the People's Garden Initiative:

[National Program](#)

Idaho now has over 10 People's Gardens. Many are directly supported by Farm Service Agency employees. Gardens are located in Lewiston, Grangeville, Boise, Mountain Home, Nampa, Kimberly, Fort Hall, Plummer, and of course American Falls. This photo shows the staff in American Falls working on their garden which

was a cooperative effort involving USDA employees and the building owner. This lovely garden replaced an unsightly weed patch and all the food will be used or donated locally.
