Tara Hett, PT

## County Committee Nominations

The County Committee nomination period runs from June 15, 2012 through August 1, 2012. For detailed information contact the Union County FSA office.

The election of agricultural producers to Farm Service Agency (FSA) county committees is important to ALL farmers and ranchers. It is crucial that every eligible producer participate in these elections because FSA county committees are a link between the agricultural community and the U.S. Department of Agriculture (USDA).

County committee members are a critical component of the operations of FSA. They help deliver FSA farm programs at the local level. Farmers and ranchers who serve on county committees help with the decisions necessary to administer the programs in their counties. They work to ensure FSA agricultural programs serve the needs of local producers.

FSA county committees operate within official regulations designed to carry out federal laws. County committee members apply their judgment and knowledge to make local decisions.

## DCP Sign-Up Deadline

Enrollment for the 2012 Direct and Counter-Cyclical Program (DCP) will continue through June 1, 2012. USDA urges producers to make use of the eDCP automated website to sign-up or visit any USDA Service Center to complete the 2012 DCP contract.

USDA computes DCP Program payments using base acres and payment yields established for each farm. Eligible producers receive direct payments at rates established by statute regardless of market prices. For more information on this or other programs, contact the nearest FSA office.

## Crop Reporting

The annual, timely and accurate reporting of acres for all crops and land uses, including failed acreage, can prevent loss of benefits for a variety of Farm Service Agency programs. All cropland on the farm must be reported to receive benefits from the Direct and Counter-Cyclical Program, marketing assistance loans and Load Deficiency Payments.

Conservation Reserve Program acreage must be reported to receive annual rental payments. Crop acreage for Non-Insured Crop Disaster Assistance Program (NAP) also must be reported.

Crop reports — form FSA-578, Report of Acreage — must account for all cropland on a farm, whether idle or planted. Producers need to file their acreage reports by July 15th.

### Prevented Planting:

Prevented planting needs to be reported no later than 15 calendar days after the final planting date.

### Failed Acreage:

Reports of failed acreage must be filed before disposition of the crop, and producers must be able to establish to the satisfaction of the county committee that the crop failed and was prevented from being replanted through the normal planting period because of natural disaster conditions.

## Conservation Compliance (HEL & Wetland)

Producers intending to remove fence rows, convert woodlots to cropland, install new drainage, or improve or modify existing drainage, must notify the FSA and update Form AD-1026. FSA will notify NRCS and NRCS will make HEL and wetland technical determinations. Farmers with HEL determined soils are reminded of tillage, crop residue and rotation requirements per their conservation plan. Failure to obtain ADVANCE approval for any of these situations can result in the loss of eligibility and all federal payments.

## NOTICE TO HISPANIC AND/OR WOMEN FARMERS OR RANCHERS

### COMPENSATION FOR CLAIMS OF DISCRIMINATION

If you believe that the United States Department of Agriculture (USDA) improperly denied farm loan benefits to you between 1981 and 2000 because you are Hispanic, or because you are female, you may be eligible to apply for compensation.

To register your name to receive a claims packet, call the Farmer and Rancher Call Center at 1-888-508-4429 or visit: [www.farmerclaims.gov](http://www.farmerclaims.gov)

The claims package will have detailed information about the eligibility and claims process.

USDA is an equal opportunity provider and employer.

## 2010 SURE Sign-Up Deadline

Sign-up for the Supplemental Revenue Assistance Payment (SURE) program for the 2010 crop year began Nov. 14, 2011, and will end on June 1, 2012. SURE provides benefits for farm revenue losses due to natural disasters. A farm is eligible when either:

- A portion of the farm is located in a county, or a contiguous county, covered by a qualifying Secretarial disaster declaration.
- An overall loss greater than 50 percent of the actual production on the farm compared to expected production for the farm for that year.

For producers to be eligible for SURE, they must have obtained a policy or plan of insurance for all crops through either the Federal Crop Insurance Act or FSA's Noninsured Crop Disaster Assistance Program (NAP). Producers must suffer a 10 percent production loss due to a natural disaster to at least one crop of economic significance on their farm in order to be eligible for SURE.

## Farm Reconstitutions

At FSA, farms are "constituted" to group all tracts having the same owner and the same operator under one farm serial number. When changes in ownership or operation take place, a farm reconstitution is necessary. If an owner or operator can not agree about program participation, like in the case of the new ACRE program, then producers should inquire about a reconstitution of the farm at the local FSA office.

The reconstitution — or recon — is the process of combining or dividing farms or tracts of land based on the farming operation. Remember, to be effective for the current year, recons must be requested by Aug. 1, 2012, for farms enrolled in specific programs.

## Measurement Service

Farmers who would like a guarantee on their crop plantings and land use acreages can make it official by using the FSA measurement service. Producers must file a request with the county office staff and pay the cost of a field visit to have stake and referencing done on the farm. Measurement service is available using digital imagery. If an on-site visit is not required producers are charged a reduced rate.

Incorrect acreage self-certification can result in reduced program payments, penalty or loss of eligibility.

## GovDelivery – Free Reminders

The USDA Farm Service Agency offices are moving into paperless operation to save your tax payer dollars. Producers can now enroll in the new **GovDelivery** system to receive instant electronic deadline reminders, bulletins and newsletters direct to your email address. Now you don't have to wait for a printed newsletter only occasionally sent through the mail.

Producers can subscribe to receive free e-mail updates by visiting this free enrollment website: [www.fsa.usda.gov/subscribe](http://www.fsa.usda.gov/subscribe). You can also call your local Farm Service Agency office. Give it a try right now. All you need is an email address for yourself or a family member where you can receive the useful email updates.

## Adjusted Gross Income

USDA and the Internal Revenue Service have established an electronic information exchange process for verifying compliance with the adjusted gross income (AGI) provisions for farm programs. Written consent is required from each producer or payment recipient for the tax review process. No actual tax data will be included in the report that IRS sends to FSA.

This ensures that payments are not issued to producers whose AGI exceeds certain limits. The limits set in the 2008 Farm Bill are \$500,000 nonfarm average AGI for commodity and disaster programs; \$750,000 farm average AGI for direct payments and; \$1 million nonfarm average AGI for conservation programs.

Participants in CCC programs subject to average AGI rules must submit form CCC-931 to their local FSA County Office to avoid interruption of program benefits. This form may be obtained from local FSA and NRCS offices.

## Farm Loan Programs

The Farm Service Agency is committed to providing family farmers with loans to meet their farm credit needs. Those producers who are having trouble getting credit for their farm or who regularly borrow from FSA, direct and guaranteed loans are currently available.

Ask a lender about an FSA loan guarantee to help with a setback or if a lender has been reluctant to extend or renew a loan.

Farm ownership loans or farm operating loans may be obtained as direct loans for a maximum of up to \$300,000. Guaranteed loans have a maximum limit of \$1,214,000. This makes the maximum combination of direct and guaranteed loan indebtedness \$1,514,000.

The one-time loan origination fee charged on FSA guaranteed farm ownership and operating loans has increased from 1 percent to 1.5 percent of the guaranteed portion of the loan, for loans obligated after Oct. 1, 2011.

To find out more about FSA loan programs, contact the Farm Loan Program staff at: 541-278-8049.

Selected Interest Rates for May 2012	
90-Day Treasury Bill	0.125%
Farm Operating - Direct	1.50%
Farm Ownership - Direct	3.50%
Limited Resource	5.00%
Farm Ownership - Direct Down Payment, Beginning Farmer or Rancher	1.50%
Emergency	3.75%
Farm Storage Facility – 7 year	1.500%
Farm Storage Facility – 10 year	2.125%
Farm Storage Facility – 12 year	2.375%
Sugar Storage Facility	2.625%
Commodity Loans 1996-Present	1.125%

Dates to Remember	
May 28	Memorial Day, Federal Offices Closed
June 1	2012 DCP Enrollment closes
June 1	Farm Record Changes Deadline
June 1	SURE Sign up ends
June 15	COC Nomination Period Opens
June 15	AGI Form CCC 931 Due
Aug. 1	Last Day to file COC nomination form
