

Display Vessel Assignment

Process Overview

Purpose

The USDA maintains vessel Master Data information. When an international commodity or freight vendor submits an offer the Vessel ID is a required field. The list of available options for this field, however, is maintained by each vendor admin. The purpose of this transaction is to allow a WBSCM user to display the master list of vessels and assign vessels to their company. Detailed vessel information can be obtained in WBSCM's master list. In addition, vendors can assign and unassign vessels to their organization as necessary.

Process Trigger

Perform this transaction when you want to see a list of vessels assigned to your company, display detailed information about any vessel or when you want to assign or unassign a vessel to your company.

Prerequisites

- Authorization to modify vessel assignments for your company.

Portal Path

Follow the Portal path below to complete this transaction:

- Select **Suppliers** tab → **Maintain Organization** tab → **Vessel Assignment** screen.

Tips and Tricks

- This transaction will not allow you to modify any fields.
- The R/O/C acronyms in the field tables represent Required, Optional, or Conditional field entries.
 - A Conditional field: an entry that becomes required as a result of entering something previous to it, which then deems it required.
 - An Optional field: you may enter information in an optional field, but an entry is not required for the completion of the transaction.
- Refer to WBSCM Portal Basic Navigation course for tips on creating favorites, perform searches, etc.

Reminders

- Remember to check your work.
- Refer to the Help Option (to the right of the screen) in the Portal for further assistance.

Display Vessel Assignment

Procedure

1. Start the transaction using the Portal path: **Suppliers** tab → **Maintain Organization** tab → **Vessel Assignment**

Display Vessel Assignment Screen

The screenshot shows the 'Vessel Assignment' screen in the WBSM Portal. The page includes a search form for vessels and a table of vessel assignments. The table has the following columns: Vessel ID, Vessel Name, Vessel Owner, Flag Registry, Assigned, and External Vessel ID. The first row is highlighted in blue.

Vessel ID	Vessel Name	Vessel Owner	Flag Registry	Assigned	External Vessel ID

5. As required, complete/review the following fields:

Field	R/O/C	Description
External Vessel ID	R	BP number associated with the vessel. Example: 0007117656

(Note) During this stage of the process, a search is being conducted for an existing vessel. Using the screen above, a basic search can be performed. If the Vessel ID is known, Flag Registry (country), Vessel Owner, Vessel Name, External Vessel ID, enter it in the fields above. Users may also click the check box to display only vessels assign to their company. Click the **Search** button to display the list matching your criteria.

For purposes of this example, we will use the **External Vessel ID**, which is the most common criteria.
