Providing PS-3553, USPS Coding Accuracy Support System (CASS) Summary Report

Approved by: Acting Deputy Administrator, Farm Programs

1 Overview

A Background

County Offices will be provided PS-3553 every 3 months to use with bulk mailings to receive the maximum discounts. The CASS certification process compares customers' addresses entered by the County Office in SCIMS or AS/400, "Other Name and Address" file, to the USPS database. Addresses that match are assigned ZIP+4 and bar codes.

The FSA customer name and address ZIP+4 code process is re-validated every 3 months to ensure that County Offices continue to receive the ZIP+4 automation rate for bulk mailings.

PS-3553 is:

- a KC-Application Development Center (ADC) computer-generated form that is automatically produced when address records are processed using CASS-certified software
- valid for 3 months from the date the name and address list is matched against the USPS database and coded.

B Purpose

This notice:

- provides County Offices with a current CASS certificate to use with bulk mailings effective upon receipt of this notice
- obsoletes Notice CM-657.

2 Using CASS/Move Update Certification

A National Certification

USPS regulations permit the KC-ADC name and address file to be treated as 1 mailing. 1-CM, paragraphs 295 and 296 provide County Offices with the procedure to process the KC-ADC, ZIP+4 validation file. PS-3553 shall be submitted with each bulk mailing to the USPS to receive the automated discount rate. See 5-AS for mailing requirements and rates.

Notes: County Office personnel experiencing difficulty obtaining local USPS approval of PS-3553 should:

- refer local postal representative to Domestic Mail Manual A950.5.2 and A950.5.4
- have local postal representative call the USPS CASS Certification Department at 800-642-2914
- forward additional problems to Sandy Bryant, FSA, PECD, Common Provisions Branch.

In addition to the CASS certification, we are also now required to run a separate certification process which compares customers' addresses entered by the County Office in SCIMS to the USPS database for accuracy. This process is currently being run through our Management Service Division by a private contractor. The contractor for the 3 month period which runs concurrently with this CASS certificate uses the "NCOA link" move update method. This information will need to be provided by checking the "NCOA link" box on the applicable USPS Postage Statement form (i.e. PS Form 3602-EZ) used for the bulk mailing as follows.

B Obtaining Automation Rate

See Exhibit 1 for a current valid copy of PS-3553. To obtain the ZIP+4 automation rate, PS-3553 shall be:

- reproduced locally by County Offices
- submitted with each mailing to USPS.
