

For: State and County Offices

Extension of Acreage Reporting Dates

Approved by: Deputy Administrator, Farm Programs

1 Overview

A Background

Because of extreme weather conditions many producers have not filed a 2009 acreage report, requested prevented planting, or reported failed acreage, as applicable.

As a result of this, a large number of producers will be reporting crop acreage in addition to requesting prevented planting and failed acreage credit in a short timeframe. This will create heavy workload in the County Offices and place additional burden on producers.

B Purpose

This notice extends the 2009 crop year final reporting deadlines for crops outlined in 2-CP where the crop year 2009 crop acreage reporting deadlines have not passed, before the issuance of this notice.

2 Extended Crop Reporting Dates

A Reporting Deadline for Acreage Reporting/Certification

For 2009 the final crop reporting dates are extended to August 14, 2009, where the crop year 2009 crop acreage deadlines have not passed. Late fees will not apply if acreage reports are filed by August 14, 2009, and all other crop reporting requirements are met according to 2-CP.

Exceptions: For NAP purposes, producers are required to file an acreage report by the extended acreage reporting date but no later than 15 calendar days before the onset of harvest if that is earlier than the extended acreage reporting date.

Under no circumstances will the extended acreage reporting date impact or change deadlines for filing other NAP forms such as CCC-576, Part B, Notice of Loss; CCC-576, Part D - G, Application for Payment; CCC-452, Production and Yield Report, etc.

Disposal Date	Distribution
December 1, 2009 6-30-09	State Offices; State Offices relay to County Offices

Notice CP-647

2 Extended Crop Reporting Dates (Continued)

B Reporting Deadline for Prevented Planting

For 2009, COC may accept CCC-576 (request for prevented planting only) as timely filed if filed by August 14, 2009. Farm visits will not be required if prevented planting claims can be verified according to 2-CP, subparagraph 24 I and all other requirements are met.

C Reporting Deadline for Failed Acreage

For 2009, failed acreage shall be reported by August 14, 2009. Farm visits will not be required if failed acreage claims can be verified according to 2-CP, subparagraph 24.5 D and all other requirements are met.

D Late-Filed Acreage Reports

Late-filed fees will apply for acreage reports filed after the August 14, 2009, final acreage crop reporting dates.
