**New Program Codes for Various Conservation Programs and  
Price Support for Establishing Assignments and Joint Payments**

Approved by: Acting Associate Administrator for Operations and Management

**1 Program Codes for Assignments and Joint Payments**

**A Background**

63-FI, Parts 3 and 4 provide information about handling assignment and joint payments in FSA Financial Services. 63-FI, Exhibit 16 provides a list of program codes that can be entered on CCC-36 or CCC-37. New program codes are available for establishing new assignments or joint payments for FY 2013.

CEPD is implementing program improvements to standardize the payment process and ensure that payment limitation and payment eligibility provisions are administered consistently for conservation programs. Beginning on or about September 9, 2013, the web-based Conservation software will be used to issue CRP annual and incentive payments earned in 2013 and disable previous payment years. Subsequently, payments earned in 2012 and prior years will use an authorized payment process and be issued through Online Payment (OLP).

The conservation web-based software will have new program codes assigned for the 2013 and subsequent payment years.

**Note:** Users shall **not** enter a program code when entering the assignment for CRP and Emergency Forestry Conservation Reserve Program (EFCRP) annual rental automatic obligation web-based code, if using the CRP, EFCRP Annual Rental Program Category.

PSD also has new codes for Dairy Economic Loss Assistance Payment (DELAP) and Reimbursement Transportation Cost Payment (RTCP) Program for Geographically Disadvantaged Farmers and Ranchers to establish new assignments and joint payments.
