

For: State and County Offices

GRP Web-Based Software Contract Approval Problem

Approved by: Deputy Administrator, Farm Programs

1 Overview

A Background

FSA deployed GRP web-based software to State and County Offices to provide automated support to process GRP applications (CCC-920's). A problem has been identified in the web-based software in the contract approval process. The software modification to resolve this issue is projected to be released this summer.

B Purpose

This notice informs State and County Offices that CCC-920's can be loaded in the web-based software; however, CCC-920's should **not** be approved in the web-based software.

C Modification Notification

The National Office will provide information, by Info Bulletin, when the software has been modified.

D Contact

For contracts that require immediate attention or questions about this notice:

- County Offices shall contact the State Office
- State Office shall contact Sylvia Redd by either of the following:
 - e-mail to sylvia.redd@wdc.usda.gov
 - telephone at 202-720-5783.

Disposal Date	Distribution
July 1, 2012	State Offices; State Offices relay to County Offices

Notice GRP-26

2 Action

A State Office Action

State Offices shall ensure that total funding on manually approved CCC-920's in any county does **not** exceed funds available in the administrative county in Conservation Funds Ledger System (CFLS) and eFunds.

B County Office Action

Until a software modification is received, County Offices should print CCC-920 and acquire the needed signatures for COC approval.

Reminder: If a CCC representative signs the manual CCC-920, they **must** ensure that adequate funds are available in that administrative county in CFLS and eFunds.
