USDA Provides One-Time Extension of Deadline to Update Base Acres or Yield History for ARC/PLC Programs

*Farmers Now Have Until March 31 to Update Yields and
Reallocate Base Acres; Deadline for Choosing Between ARC
and PLC also Remains March 31*

Agriculture Secretary Tom Vilsack announced today that a one-time extension will be provided to producers for the new safety-net programs established by the 2014 Farm Bill, known as Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC). The final day to update yield history or reallocate base acres has been extended one additional month, from Feb. 27, 2015 until March 31, 2015. The final day for farm owners and producers to choose ARC or PLC coverage also remains March 31, 2015.

If no changes are made to yield history or base acres by March 31, 2015, the farm's current yield and base will be used. A program choice of ARC or PLC coverage also must be made by March 31, 2015, or there will be no 2014 payments for the farm and the farm will default to PLC coverage through the 2018 crop year.

Nationwide, more than 2.9 million educational postcards, in [English](#) and [Spanish](#), have been sent to producers, and over 4,100 training sessions have been conducted on the new safety-net programs.

your operation or county.

The online tools, available at www.fsa.usda.gov/arc-plc, allow producers to explore projections on how ARC or PLC coverage will affect their operation under possible future scenarios.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity.

To learn more, farmers can contact their local Farm Service Agency county office. To find your local office visit <http://offices.usda.gov>.

Filing for NAP Losses

The CCC-576, Notice of Loss, is used to report failed acreage and prevented planting and may be completed by any producer with an interest in the crop. Timely filing a Notice of Loss is required for all crops including grasses. For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP) and crop insurance, you must file a CCC-576, Notice of Loss, in the FSA County Office within 15 days of the occurrence of the disaster or when losses become apparent.

If filing for prevented planting, an acreage report and CCC-576 must be filed within 15 calendar days of the final planting date for the crop.

Microloan Cap Grows to \$50,000

Farm Service Agency (FSA) reminds farmers and ranchers that the FSA borrowing limit for microloans increased from \$35,000 to \$50,000, effective Nov. 7. Microloans offer borrowers simplified lending with less paperwork.

The microloan change allows beginning, small and mid-sized farmers to access an additional \$15,000 in loans using a simplified application process with up to seven years to repay. Microloans are part of USDA's continued commitment to [small and midsized farming operations](#).

To complement the microloan program additional changes to FSA eligibility requirements will enhance beginning farmers and ranchers access to land, a key barrier to entry level producers. FSA policies related to farm experience have changed so that other types of skills may be considered to meet the direct farming experience required for farm ownership loan eligibility. Operation or management of non-farm businesses, leadership positions while serving in the military or advanced education in an agricultural field will now count towards the experience applicants need to show when applying for farm ownership loans. **Important Note:** Microloans cannot be used to purchase real estate.

Since 2010, FSA has made a record amount of farm loans — more than 165,000 loans totaling nearly \$23 billion. More than 50 percent of USDA's farm loans now go to beginning farmers. In addition, FSA has increased its lending to underserved producers by nearly 50 percent since 2010.

Please review the FSA [Microloan Program Fact Sheet](#) for program application, eligibility and related information.

Loans for Targeted Underserved Producers

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for members of targeted underserved groups.

A targeted underserved applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, targeted underserved groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

USDA is an equal opportunity provider and employer.
